### WHERE IN THE WORLD IS NEW ZEALAND?

New Zealand consists of two main islands in the South Pacific, three hours to the east of Australia by plane, an overnight flight west of the USA, or a ten to twelve hour direct flight from most Pacific Rim countries.

New Zealand is a stable English-speaking democracy with a population of four million people. Internationally, it is known for the beauty of the landscape plus the culture of the Māori – New Zealand's first nation people. The cities are clean, open and lively, with Auckland in particular showing many Pacific influences. New Zealand's oceans, mountains, and open spaces provide many opportunities for sport and exciting adventure. New Zealand has earned an international reputation for its politically independent stance, support for environmental causes and radical economic reforms. Its people have made significant contributions to the worlds of science and technology, the arts, medicine, conservation, food, wine, sports and fashion.

The quality of education in New Zealand ranks high by world standards.

## THE PROGRAMMES

AUT offers two short term options, both of which earn you credit towards your home degree, and can be undertaken for a semester or a year.

### THE STUDY ABROAD PROGRAMME AT AUT

Students undertake a full time load of four papers (courses) per semester or eight per year. You will have a wide choice of subjects across the disciplines offered on Campus, enabling you to meet the requirements of your home institution, but also to broaden your educational experience by studying subjects not available to you at home. The main fields of study are Business, Health Sciences, Art and Design, Communication, Sport and Recreation, Engineering, Tourism and Hospitality, Educational and Social Sciences, and Computing and Mathematical Sciences. Te Ara Poutama, the Faculty of Māori Development, provides a range of papers which provide the opportunity to learn about our unique culture and heritage.

### THE STUDY/INTERNSHIP PROGRAMME

This is a full-time semester long programme which gives you the opportunity to undertake a part-time supervised work placement in your chosen field along with two mainstream AUT papers, earning you a full semester's credit to your home degree. The AUT internship programme offers a unique opportunity to learn first hand about the culture and society of New Zealand in a workplace setting, while gaining valuable experience in intercultural communication so necessary in today's world. Students normally spend 15-20 hours per week at their placement during term time and must complete assignments relating to their experiences in the workplace.

### MAKING THE MOST OF YOUR SEMESTER ABROAD

A Study Abroad semester is about immersing yourself in the learning, language and culture of another country. It can be one of the most rewarding and enriching times of your life and at AUT you are ideally placed to be able to make the very most of the opportunities offered to you. For a start, the largest and most culturally diverse city in New Zealand is right at your doorstep so get out and explore Auckland before venturing further afield! This is easily done on foot or by catching an inner city bus.

Experience one of the many cultural festivals which Auckland hosts throughout the year, take in a Polynesian market day, check out the music and sports calendar for world class entertainment. Also look out for the AUSM (AUT Student Movement) CONNECT bus trips to various point of interest in the greater Auckland area.

From Auckland, the rest of New Zealand is readily accessible and offers a huge diversity of landscape and experiences. There are several tour companies catering specifically for student travel, who can help to make this happen. You will find out more at Orientation.

The Study Abroad Welcome Party usually takes place in the second week of the semester and is an excellent opportunity to meet students from around the world. Connections are made, friendships are formed, trips are planned, and sometimes even flatmates are found. A fun evening as well!

The Noho Marae Weekend is an event unique to AUT and a highlight for many. At the beginning of semester you have the opportunity to stay on the AUT Marae (meeting house) for two nights and experience communal living. Over the course of the weekend you will meet Māori students and their families, learn Māori crafts and performing arts (including the haka) and participate in a traditional Māori feast. Students make lifelong friends from all nationalities and experience Māori culture in a very real way. All new international students to AUT are invited to attend.
