Papers	Expected Prior Knowledge / Experience	Paper Coordinators / Lecturers	Tick
408204 Usage Centred Design		Dr Phil Carter	
408211 ICT Issues in the SME Sector		Alan Litchfield	
408216 Data Mining & Knowledge Engineering		Dr Russel Pears	
408217 Information Security		Krassie Petrova	
408220 Research Methods 1		Dr Phil Carter	
408221 Research Methods 2	Formal pre -requisite 408220	Dr Robert Wellington	
409219 Health Informatics		Dr Dave Parry	
409221 eSystems Design & Development	SQL & database experience	Prof Alvis Fong	
409224 Artificial Intelligence	Ability to think critically and creatively & reasonable programming skills.	Prof Albert Yeap	
409226 GeoComputation	Basic statistics, data modelling and programming	Dr Subana Shanmuganathan	
409228 Search Based Software Engineering	Programming & software engineering experience	Dr Andy Connor	
409229 Human Computer Interaction		Dr Robert Wellington	
MCIS Thesis 120 points or 90 points	Completed 120 (or 150) points of course work papers including 408221. A PG1 submitted. Subject to approval by PL/HoS.		
BCIS (Hons) Dissertation 45 points	Completed 75 points of course work papers including 408220. A PG1 submitted. Subject to approval by PL/HoS.		

NOTES: 1. Each paper is 15 points. Please remember that your enrolment in a paper may not be approved until you have met the enrolment requirements as stated in the table above. 2. Timetabling and availability of classes are subject to change, please refer to Arion for the latest timetable. 3. Change of enrolment prior to the start of the semester. Students are not usually permitted to change their enrolment once a paper has commenced. However, in exceptional circumstances, and if there is space, students may request a change and should contact the Postgraduate programme administrator. Such changes may incur the fee as outlined in AUT's Enrolment Guide for Students.
