

## AUT Business School's Top Graduates of 2013

It is my privilege to present to business and the broader community the 2013 top achieving graduates from the AUT Business School. To be chosen in this elite group, these graduates had to obtain the highest overall result in their discipline or overall in one of the AUT Business School programmes. This is no mean feat, as not only is the AUT Business School curriculum rigorous, it is also relevant, with a focus on issues and problems facing business today. Work-place embedded learning and applications of learning, to relevant situations in a business context are major differentiating features of the AUT Business School's curriculum and research, which prepares our graduates exceptionally well for careers and further study. This cohort of award winners represents the cream of our graduates and will be at the forefront of future leaders in the local, regional and global communities. Their outstanding academic performance leaves them well placed to make a significant impact and contribution. They are the standard bearers who will help the AUT Business School achieve its vision "Transforming lives, Changing business".

**Dr Geoff Perry, Pro Vice-Chancellor and Dean, Faculty of Business and Law**
