The Symbol – Te Tohu

The Auckland University of Technology symbol shape is reminiscent of a Māori taiaha, which is symbolic of forging new ways.

The upper part represents European heritage. It contains a stylised 'A' which stands for 'Auckland and educational excellence'. The 'A' is made up of two stylised hands which represents the hands-on vocational history of the University.

The interlocking of the upper and lower shapes is representative of electronics and the future.

The lower part represents Māori heritage with stylised designs representing the three baskets of knowledge.

Glossary

Academic Record The official record held by the University of a student's academic history.

Advanced Standing A type of credit given to applicants on admission to master's degrees who have completed a specifically related AUT postgraduate certificate, postgraduate diploma or bachelor's degree with honours. The points completed in the lower qualification count towards the overall points required for the master's degree.

Assessment The procedures used to determine a student's knowledge and performance in respect of the course learning outcomes.

AUTSA Auckland University of Technology's Students' Association.

Bachelor's Degree A qualification at undergraduate level conferred on persons who have completed a structured course of study that builds on prior qualifications or study and has a total value of not less than 360 points (3 EFTS).

Campus A geographical location where AUT qualifications are taught, e.g. City, North, AUT Millennium, South.

Certificate A coherent programme, with a total value of not less than 60 points (0.5 EFTS) and generally not more than 120 points (1 EFTS), which is designed to provide a student with a tertiary level qualification in a particular area of study.

Certificate of Personal Interest May be awarded to a student who specifically enrols in a single course, attends the classes for that course, but is not subject to assessment.

Certificate of Proficiency May be awarded to a student who specifically enrols in and successfully completes a single course without crediting it to a qualification.

Corequisite One or more specified courses that must be undertaken in conjunction with another course, unless previously successfully completed.

Course The smallest unit of work in which a student can enrol, identified by a unique number, and delivered by means of lectures, tutorials, seminars, practical requirements etc, or in distance mode by correspondence or electronically. The length of a course is generally one semester. In appropriate combinations, courses fulfil programme requirements and thus contribute to qualifications.

Course of Study Sequence of courses taken by a student within one or more qualifications. (See also Programme)

Coursework Postgraduate courses other than a thesis or dissertation.

Diploma A qualification at the undergraduate, or non-degree level, with a total value of not less than 120 points (1 EFTS).

Doctoral Degree An advanced postgraduate qualification, typically of 360 points, that requires an original contribution to knowledge.

Learning Outcomes Statements of the knowledge, skills and attitudes that students are expected to demonstrate as a result of successfully completing a course.

Level A hierarchy of learning complexity from Level 1 to Level 10 (doctorate level), as defined in the New Zealand Qualifications and Credentials Framework. The level of a course is generally signified by the third digit of a numeric course code or the first digit of an alphanumeric code, e.g. 356803 and JOUR600 are both Level 6 courses.

Major A substantial component of a degree in a subject area selected by a student in accordance with the regulations, as the principal area of study within a programme.

6.3   A course which is reassigned is no longer credited to the former qualification.

6.4   A course passed with a conceded pass may not normally be reassigned. If this course is compulsory, another course may be substituted with the approval of the assessment board.

6.5   Students may apply to reassign a course or courses passed for a Certificate of Proficiency once they have been accepted and enrolled in the relevant qualification.

Section 7   Reconsideration and Appeal

7.1   A student may request in writing and upon payment of any prescribed fee a reconsideration by the assessment board of a decision made under these Regulations.

7.2   Any such request for reconsideration must be lodged within 14 days of the day on which the decision was communicated to the student.

Part 9   Standard Qualification Regulations

Section 1   Introduction

1.1   These regulations define each type of qualification offered by the University.

1.2   The definitions in these regulations are based on the New Zealand Register of Quality Assured Qualifications and the Handbook of the New Zealand Vice-Chancellors' Committee on University Academic Programmes.

1.3   Specific qualifications are further defined by the individual programme regulations.

Section 2   Doctoral Degrees

1   Character of Doctoral Degrees

1.1   The doctorate is a research degree of 360 points at Level 10 that is granted on the basis of an original and substantial contribution to knowledge as judged by independent experts applying contemporary international standards.

1.2   Doctorates may be of two types as follows:

1.2.1   Doctor of Philosophy (PhD): the thesis constitutes the entire body of work on which the qualification is judged.

1.2.2   Doctorate in a specified field or discipline (professional doctorate): coursework may contribute to the assessed programme of study, but research and its associated thesis must constitute at least two thirds of the total points required for the qualification.

2   Admission to Doctoral Degrees

2.1   Admission shall be subject to the approval of University Postgraduate Research Board which shall consider recommendations for admission from the faculty postgraduate committee.

2.2   Prior to recommending the admission of an applicant the faculty postgraduate committee shall be satisfied that the following requirements have been met:

2.2.1   the applicant has the appropriate qualification

2.2.2   the proposed programme of research is viable

2.2.3   the arrangements for supervision are appropriate and able to be sustained

2.3   In order to be admitted to a doctoral degree, an applicant shall normally have completed the requirements of either a master's degree with honours or a bachelor's degree with honours (equivalent to four years of study) in a discipline which is appropriate to the proposed research.

2.3.1   The degree must normally have been gained at the standard of first or second class (first division) honours from this University or a recognised equivalent.

2.3.2   The degree must also have included advanced learning in research, the execution of a research project and the writing of a report on that research.

2.3.3   In addition a professional doctorate applicant must provide evidence of having a minimum of five years' professional experience in their specific area of study.

2.3.4   The admission status will be determined by the University Postgraduate Research Board as either provisional or confirmed.

3   Time Limits

3.1   The total time from first enrolment in a doctoral degree programme until submission of the doctoral thesis for examination is three years of full-time or six years of part-time study.

3.2   Where a candidate is prevented by ill health or exceptional circumstances from making progress with the research, the University Postgraduate Research Board may approve adjournment of registration, a shift to part-time status or an extension to the timeframe for completion in accordance with processes set out in the Postgraduate Handbook.

3.3   The University Postgraduate Research Board may approve the early submission of a thesis for examination under exceptional circumstances.

3.4   The University Postgraduate Research Board may grant an extension of time to a candidate who has not completed the thesis by the end of their period of enrolment.

3.4.1   The student shall pay the appropriate additional fees for an extension on a pro-rate basis.

4   Theses

4.2   Before beginning work on a thesis the applicant or candidate shall submit a proposal for approval to the University Postgraduate Research Board.

4.3   The University Postgraduate Research Board approves the appointment of a minimum of two supervisors for theses.

4.3.2   In the case of a candidate whose work is not proceeding satisfactorily for reasons outside their control, or who does not have an effective working relationship with a supervisor, the programme leader may arrange for a suitably qualified replacement supervisor to be appointed by the University Postgraduate Research Board.

4.3.3   If a candidate is dissatisfied with the decision of the University Postgraduate Research Board, the candidate may appeal directly to the Academic Board for a change in supervision arrangements.

4.4   A candidate shall apply to the University Postgraduate Research Board for permission to undertake research at a location other than the University.

4.4.1   In such circumstances the University Postgraduate Research Board must be assured that supervision arrangements will be satisfactory for both the University and the candidate and shall appoint an appropriate external supervisor.

4.5   A candidate may apply to the University Postgraduate Research Board to undertake a part of their research with an approved collaborating establishment, such as an industrial, commercial, professional or research establishment.

4.5.1   Such formal collaboration should normally involve a candidate using facilities and other resources provided jointly by the University and the collaborating establishment(s), and include joint supervision of the candidate.

The results from the four parts then produce an Overall Band Score. All parts of the test and the Overall Band Score can be reported in whole and half bands. Applicants must normally have taken the IELTS test within two years of their application to a programme.

The University offers the AUT Academic English Course (AUT AE) which is recognised for English language proficiency.

The University also recognises other English language tests as stated on the University website. The English language requirements for all of the programmes offered by the University are specified in terms of the grading scale used for the IELTS test.

Note: IELTS must be used to demonstrate English language proficiency for entry to those programmes where professional bodies require IELTS to be used as the only measure of English language proficiency (e.g. clinical health sciences programmes).

Following are the IELTS admission scores and AUT AE grades required for qualifications in general:

Qualification Level	Minimum IELTS Scores	Minimum AUT AE Grades
Doctorate	6.5 overall with 7 in Writing and all bands 6.0 or higher

In such cases, the University Entrance Advisory Group shall consider the application and advise the University Admissions Office accordingly.

Part B   Specific Programme Admission

Admission to Bachelor's Degrees

Notwithstanding the requirements stated above, the University will consider applicants who present combinations of results from NCEA, CIE and IB for admission into open and restricted entry programmes. This includes combinations meeting literacy and numeracy requirements.

In addition to meeting the common University Entrance Standard, applicants for entry into some bachelor's degree programmes will be required to meet additional entry requirements[1] (other evidence such as a portfolio, an interview, a curriculum vitae, audition, references or a police clearance may also be required). This evidence will be used to determine the applicant's suitability for the programme. Preferred subject requirements may also be specified. Applicants may be interviewed in order to establish their potential to pursue the programme to a successful conclusion and/or, where applicable, to determine whether they have the attributes necessary for professional practice in the area.

Because of restrictions on funded student places and in some cases specialised work spaces or clinical placements, there will be a limitation on the number of students who can be enrolled in undergraduate programmes. The following overarching criteria will apply:

- Applicants must apply for a place before closing dates which can be found in individual programme study guides and on the University website.
- Applications received after the specified closing dates will be given reduced priority in consideration for a place in a programme and/or course.
- Where the number of applicants for a place in a programme or course exceeds the approved number of available places, selection will normally be based on academic merit and in accordance with criteria that have been approved by the boards of studies.
- In those cases where the scholastic record is insufficient, e.g. for some applicants applying under Discretionary Entrance or Special Admission, other criteria such as evidence of accomplishments in the relevant field, employment history, academic preparedness (including English language or literacy) will be taken into account. Account will also be taken of the University's equity objectives.

The following table indicates where there are additional programme entry and selection requirements. Further details on specific selection criteria or processes for limited entry programmes or courses will be available from the faculty or department concerned.

Note: Additional subjects and preferred subjects refer to NCEA subject titles. Applicants without NCEA subjects may be required to provided evidence of equivalence.

BACHELOR'S DEGREES WITH ADDITIONAL ENTRY REQUIREMENTS AND/OR SELECTION CRITERIA

In the following table, unless otherwise specified, reference to any subject represents:

- NCEA: at least 14 credits in [the subject] at level 3 (or level 2 where stipulated);
- CIE: a D grade or better in [the subject] at AS or A level;
- IB: a grade of 4 or better in [the subject].

List B: Biology, Chemistry, Earth and Space Science, Physics, Science
List C: Calculus, Mathematics, Statistics

Rank Score (also known as Academic Score) may be used by some programmes to determine academic achievement for selection purposes. The score is calculated by multiplying a student's best 80 NCEA credits at level 3 by weightings given to the level of achievement (achieved, merit or excellence) for those credits. Different calculations and scores apply for CIE and IB results. See website for details.

(b) Parties will be informed if the Vice-Chancellor decides that an external mediator be engaged to mediate a complaint, and the reasons for that decision. As soon as an external mediator is appointed, parties will be informed of that person's name and background.

10.2 Setting Up Mediation

(a) Once a mediator has been appointed, he or she will contact the parties to introduce him or herself, explain their role and arrange the mediation date, time and venue.

(b) Initially, the mediator will talk separately with all parties to find out their individual view of the complaint and discuss their commitment to the mediation process. This will enable the mediator to assess whether pre-mediation meetings are required with the parties separately or whether a mediation session can be arranged straight away.

(c) On occasion, the mediator may decide that shuttle mediation will take place. Shuttle mediation is where the parties talk to each other through the mediator but do not meet face-to-face. The mediator will decide whether shuttle or "round-table" mediation is the most appropriate form of mediation for the particular conflict.

(d) The mediator will arrange a date, time and venue for pre-mediation interviews and/or the mediation session.

(e) The Vice-Chancellor and the University and the mediator will provide all the assistance they can so that the mediation session can be arranged promptly and efficiently.

(f) All parties to the mediation will be expected to Co-operate fully with the mediator so that a mediation session can be arranged as soon as possible

(g) All parties to the mediation must keep confidential any statement, admission, information or documentation ("information") disclosed in the course of the mediation and they shall not use such information for any other purposes including any future Discipline Committee hearing.

10.3 Parties' Conduct in Mediation

In order to successfully participate in a mediation session parties should approach the mediation with an open mind, being prepared to listen to what the other party/parties has to say. Parties must be willing to accept the role of the mediator as director of proceedings.

10.4 Mediation Report

(a) At the conclusion of a mediation the mediator will complete a mediation report.

(b) A mediation report will include the following information:

(i) The names of the parties

(ii) The date the mediation took place

(iii) The name of the mediator

(iv) The mediation venue

(v) In broad terms, the nature of the complaint and the issues in dispute

(vi) Details of any agreement reached between the parties

(vii) Details of any issues remaining unresolved at the conclusion of the mediation

(c) All parties and the mediator must sign the mediation report.

10.5 A copy of the report shall be given to the parties and the Vice-Chancellor. A copy of

the report is given to the Vice-Chancellor so that he or she can monitor the effectiveness of mediations generally, organise any support required for parties to make an agreement work, monitor that agreements are successful, and organise for assistance to be provided, where appropriate, to resolve any outstanding issues.

10.6 Where the parties agree, other related persons involved will be given a copy of the mediation report by the Vice-Chancellor. The purpose of the Vice-Chancellor providing a copy of the report to the other person/s is so that these people can provide practical support to parties to help them implement their settlement agreement or resolve outstanding issues.

10.7 All these persons must keep the contents of this report confidential, unless the parties agree otherwise. Any agreement to provide a copy of the report to other persons is to be recorded by the mediator.

11 Discipline Committee – the people

11.1 A Discipline Committee shall be composed of three persons as follows:

(a) a nominee of AUTSA;

(b) a legal advisor nominated by the Vice-Chancellor;

11.4 The Vice-Chancellor shall provide the details of the complaint to the Administrative Secretary. Such details shall include outcome/s of any investigation, documents referred to and all other relevant material.

11.5 The role of the Discipline Committee is to assist in maintaining the good order and discipline of the University through hearing and determining all complaints and imposing appropriate penalties where there has been a breach of discipline.

12 The Discipline Committee – the initial process

12.1 Where the Vice-Chancellor has referred a complaint to the Discipline Committee the process set out in Sections 12–14 below shall apply.

12.2 The Administrative Secretary shall:

(a) ascertain the identity of the nominees, i.e. the identity of the AUTSA, Vice-Chancellor and Academic Board's nominees.

(b) set a date for the committee hearing – such date to be within 7 working days of the receipt of the complaint by the Discipline Committee.

(c) prepare a notice to the student, the complainant and the committee members containing the following:

(i) a statement of the complaint against the student, setting out the nature of the complaint, the facts upon which the complaint is based, reference to the particular provisions of the statute that have allegedly been breached, and the potential penalties that could be imposed;

(ii) date, time and place of the hearing;

(iii) the people who will be present at the hearing;

(iv) the consequences of not appearing at the hearing;

(v) any documents or evidence relevant to the complaint including statements from witnesses and documents referred to or relied on unless it would compromise the safety of the Complainant or be against the public interest;

(vi) an explanation of the process that will be followed;

(vii) the right to representation for both parties;

(viii) a request that any documentary or other information to be submitted by the student be given to the Administrative Secretary at least two (2) days prior to the hearing so that it can be distributed and considered.

(d) Send a copy of such notice to:

(i) the student

(ii) the committee members

(iii) the complainant.

(e) Any notice shall be deemed to have been received by the student where it has been sent to the student by registered post at their last address notified to the Academic Registry.

(f) In the event that further documentation is put forward, ensure that all parties (refer (d) above) have a copy as soon as possible prior to the hearing.

12.3 Once the matter is referred to the Discipline Committee, if there is any member whose participation in the hearing would be inappropriate for various reasons including that of conflict of interest, that member should withdraw from participation in the hearing and a new person be appointed in their place.

12.4 The student shall be informed, in the event that the complainant withdraws his or her complaint, whether the Discipline Committee will proceed with the hearing or not.

12.5 The Discipline Committee may adjourn the hearing to an alternative date:

(a) at the request of either the student or the complainant where such request is reasonable and to continue would result in an injustice to the student or the complainant;

(b) to consider further or new evidence or to await the collection of further or new evidence.

12.6 Where the hearing is adjourned, a new date must be set at the earliest opportunity.

13 Discipline Committee – the procedure of the hearing

13.1 The Discipline Committee shall have the right to regulate its own process, provided that it does not act in a manner contrary to the principles of natural justice, or in breach of or contrary to the provisions of this statute.

13.2 The Discipline Committee shall not be bound by the rules of evidence and may hear any evidence presented as is just and equitable in the circumstances. All evidence considered shall be given the appropriate weight and relevance.

13.3 A guideline to the appropriate procedure is set out in Schedule A. This is a guide only and shall not be read so strictly or narrowly as to inhibit the ability of the Disciplinary Committee to regulate its own proceedings.

13.4 At the conclusion of the Hearing, the Committee shall reach a decision as to whether on the balance of probabilities there has been a breach of discipline.

13.5 If it is decided that a breach has not been proved then the complaint shall be dismissed.

13.6 If it is decided that a breach/s has been proved then the Committee shall make a decision as to:

(a) the nature of the breach;

(b) the penalty to be imposed.

13.7 In reaching a decision it is preferable that the Committee be unanimous. If, however, that is not possible then the decision of the majority will be the decision of the Committee.

13.8 A decision may be delivered initially orally (at the discretion of the Committee) but shall also be notified in writing.

13.9 The written decision of the Discipline Committee shall set out the details of the decision itself and the reason/s for that decision.

13.10 A copy of the written decision shall be provided to the student, the complainant, the Vice-Chancellor, and to any other person or persons that the committee considers appropriate. Further, the Discipline Committee may, if it considers it appropriate, resolve that all or part of its decision remain confidential to the student, the complainant and the Vice-Chancellor.

13.11 The student and the complainant shall have the right to appeal the decision reached by the Discipline Committee in accordance with the appeal provisions set out at Section 15. They shall be notified of such right at the time the decision is sent to them.

14 Discipline Committee powers

14.1 The Discipline Committee shall have the power:

COMPLAINTS[1] PROCEDURES

The relationship between students and lecturers is of a critical, but delicate, nature. The maintenance of a sound relationship requires commitment from both parties.

The Auckland University of Technology looks to both its staff and students to work together to achieve an effective relationship that can resolve problems directly if possible. However, the University recognises that this goal may not always be achievable. The following paragraphs outline the action that should be taken if a student considers that the way in which matters have been handled is not appropriate, or if they are dissatisfied with the treatment he or she has received.

A student who is dissatisfied with any aspect of the service being given, either by academic staff, administrative staff or any other of the University's service providers, is advised to take the following action:

Step One

The student should raise the matter first with the person responsible for providing the service considered unsatisfactory or, if that is clearly inappropriate, raise the matter with the programme leader or the manager of the service area involved[2].

Step Two

As a general rule, the person to whom the complaint has been made will work to have the matter resolved to the student's satisfaction. If the problem persists, or the student is dissatisfied about the way the matter has been handled, he or she should request a meeting with the following: For Faculty issues – the programme leader, head of department, school or the faculty registrar. For general AUT issues – The Director responsible for the service area[3].

Step Three

If steps one and two have been followed and this does not lead to a resolution of the problem to the student's satisfaction, the student may lodge a formal complaint. Any formal complaint must be made in writing and be addressed to the Head Student Grievance. The written statement must outline clearly the student's concerns. A formal complaint may be submitted directly by the person concerned, or by AUTSA on behalf of the student. The Head Student Grievance will investigate the complaint and reply in writing to the student concerned.

---

1 Dissatisfaction with respect to an academic assessment is *not* treated as a complaint. Refer to Part 5: Section 6, and Part 6: Sections 1 and 2, General Academic Regulations regarding reconsideration of assessments and appeals against results. Students may however lodge a formal complaint under these procedures if they consider that some part of the academic appeal process has been unfair or disadvantageous.

2 Further advice and assistance in resolving any issues and who to contact can be obtained from the Student Feedback Team (studentfeedback@aut.ac.nz).
3 AUTSA can also provide assistance and are able to represent students on any step along the way (advocacy@aut.ac.nz).

Support to Study Code – Health, Wellbeing and Fitness to Study

1 Preamble

1.1 Te Wānanga Aronui o Tāmaki Makau Rau, Auckland University of Technology (AUT or the University) is committed to supporting tauira (students) and recognises the importance of a student's health and wellbeing in relation to their academic progression, wider University experience, and duty of care to comply with the Education (Pastoral Care of Tertiary and International Learners) Code of Practice 2021.

1.2 There may be occasions where the health, wellbeing and/or behaviour of a student deteriorates, causes concern, or the current support is not adequate, to an extent where it raises questions about their Fitness to Study. For example, the student's:

(a) Capacity to participate safely and fully in their studies or work placements, including clinical placements;

(b) Ability to live safely in University accommodation;

(c) Ability to use University services and/or facilities appropriately;

(d) Ability to interact with University staff and students effectively;

(e) Ability to manage their academic workload effectively.

1.3 This Support to Study Code is a supportive procedure to be used when a student has disclosed or appears unable or unwilling to manage their health and wellbeing, or their behaviour is of such concern that the University has good cause to intervene.

1.4 It outlines the steps that the University will follow when concerns are raised about the Fitness to Study of one of its students.

1.5 It applies to all enrolled students, part time or full time, as well as students on placement or overseas. Throughout this document, the term 'student' will be used.

1.6 In the Support to Study Code, all references to the Deputy Vice-Chancellor, Group Director of Student Services and Administration, Student Conduct Manager, Student Relations Manager, Student Advising Manager, Student Relations team, Primary Person (and other positions identified by title), include their nominee.

1.7 Any action taken under this Support to Study Code does not preclude other actions available to the University including disciplinary action.

1.8 The University may continue to act in accordance with this Support to Study Code despite a student failing to or refusing to engage with any of the procedures set out below.

1.9 In some circumstances, students may be deemed too unwell to participate with the Support to Study Code. When a student's enrolment concludes, due to these concerns prior to commencing the Code process, the student may be advised in writing that any future return to study may be managed under, the Support to Study Code and any return to study settings outlined in this framework

1.10 The student is entitled to bring a support person to any meeting with University staff which takes place under the Support to Study Code. The meetings may be recorded at a student's request. When receiving an appointment to meet, students must notify that a recording is requested.

1.11   The student has the right to ask the University to reconsider a range of outcomes issued under the Support to Study Code or conditions within a Support Plan communicated to the student by the University. A student can appeal a suspension, withdrawal, or exclusion from the University.

2   Indicators

2.1   It is not possible to provide an exhaustive list of circumstances that may give rise to concerns about a student's Fitness to Study. However, circumstances may include:

a)   Deterioration in a student's physical or mental health;

b)   Changes in a student's appearance or behaviour which suggests a deterioration in their mental or physical health;

c)   A pattern of behaviour or communication which appears irrational, inappropriate or extremely inconsistent;

d)   A pattern of unreasonable demands which appear irrational, inappropriate, or inconsistent;

e)   Behaviour which breaches the AUT Discipline Statute, and/or impacts negatively on University staff and/or students or the delivery of University services.

f)   An alert to the University by a member of the public raising a concern about a student.

2.2   This Support to Study Code identifies three levels of intervention depending on the perceived level of risk to the health and wellbeing of the student or others. It is possible for a matter to begin at any level, progress through some or all of the levels, return to lower-level intervention, or be resolved.

2.3   Concerns should be acted on promptly, as early intervention and support is likely to be in a student's best interest and reduce the potential for an issue to become more complex.

2.4   Where there are concerns about serious or immediate risk to a student or others, the procedure for imposing an immediate suspension in accordance with section 4 below should be considered in the first instance.

3   Procedure Level 1: Emerging or Low Level Concern

3.1   Concerns regarding a student's Fitness to Study will normally be dealt with by the Student Relations team. Where a concern(s) about a student's Fitness to Study meets the threshold for intervention under the Support to Study Code as approved by the Group Director Student Services & Administration, a member of the Student Relations team will meet the student as soon as possible. An appropriate member of staff from the student's school (often known as the Primary Person) will join the meeting as needed.

3.2   Prior to the first meeting the Student Relations team will inform the student, in writing:

That there is a meeting under Level 1 of the Support to Study Code, and:

a)   The issues, incidents, or concerns to be discussed;

b)   The list of attendees at the meeting;

c) The purpose of the meeting under the Support to Study Code framework;

d) The possible outcomes of the meeting under the Support to Study Code;

e) The student's right to bring a support person to meetings and to use AUTSA advocacy services.

3.3 The Student Relations team or Primary Person may speak with other relevant University staff in order to gather information to help inform the discussion of the Level 1 meeting.

3.4 If it is determined that there are issues that need resolving to ensure a student's Fitness to Study, the University may take such action as is appropriate in the circumstances, including but not limited to one or more of the following:

(a) Draw up a Support Plan, detailing the relevant issues and outcomes to support the student. The Support Plan will cover a specific period of time and may include regular review meetings.

(b) Draw up a Support Plan as above, but include conditions placed on the student in relation to their behaviour, conduct or engagement with the university and/or central support services;

(c) Refer the student to Level 2 or Level 3 of the Support to Study Code

3.5 The Student Relations team will notify the student in writing of all decisions reached and provide the student with a copy of a Support Plan. This notification will be provided within five (5) working days of the meeting and will include reasons for any decisions made by the University regarding the student's Fitness to Study.

3.6 A written record of the meeting, plus copies of all Support Plans, will be stored in a secure area within the University's Customer Relationship Management (CRM) system.

3.7 The action or actions taken above will be monitored by the Student Relations team. Breaches of conditions included in the Support Plan, or subsequent concerns regarding the student's Fitness to Study, may result in the student being referred to Level 2 or Level 3 of the Support to Study Code.

3.8 If the student refuses to attend meetings, or to engage in the process, they may be referred to Level 2 or Level 3 of the Support to Study Code.

4 Procedure Level 2: Continuing or Significant Concern

4.1 Level 2 should be considered if there is continued concern following Level 1, or where there is significant concern about a student's health, wellbeing, behaviour, safety, or ability to study, meriting direct referral to Level 2. Such concerns may include significant deterioration in health, appearance, attitude, or behaviour (particularly where there is an impact on attendance), ability to meet deadlines, ability to succeed academically, or ability to use the University premises appropriately.

4.2 Once concerns have been raised about the student, the Student Relations Manager and/or Student Conduct Manager will provide a notice of Level 2 referral. This will be done in consultation with relevant University staff and will include:

(a) Identification of the continuing and ongoing concern (including specific information and incidents);

(b) Collation of any relevant information about the student (e.g. non-attendance, missed deadlines, isolation, issues with other services in the University or placement providers);

(c) Actions taken so far and their efficacy; and

(d) Notes on discussions had with Student Services, or the student's faculty/school for advice or guidance on how best to approach the student.

4.3 The student will be given a copy of all documents seen by the case review attendees and will be able to submit documents for the case review attendees to consider and will be given the opportunity to give their perspective of current issues and (where appropriate) history of events, past experiences, and helpful strategies or support for managing these.

4.4 The notice will be sent to the Group Director Student Services and Administration who will chair a case review. Relevant members of the faculty/school, Student Services and Safety and Security team will be invited to attend. Subject to privacy law and professional codes of confidentiality, the student will also receive a copy of the notice. The student will be invited to the case review and provided with the following information:

(a) The list of attendees of the case review meeting. Any subsequent changes to the attendees will be communicated to the student prior to the case review meeting;

(b) The nature of the concern(s) raised and that the matter is being dealt with under Level 2 of this Support to Study Code;

(c) That the purpose of the meeting to explore the concern regarding the student's Fitness to Study and whether it can continue to be managed at Level 2;

(d) The procedures for the meeting (which include the recommendation that the student bring a support person and that the student will be invited to respond to the concern); and

(e) Possible outcomes of the case review.

4.5 The case review attendees may uphold or dismiss some or all of the concerns raised. If the case review attendees determine that the student's Fitness to Study is impaired or may become impaired, the following outcomes may be applied:

(a) Draw up a Support Plan with conditions or a revised Support Plan with conditions;

(b) Recommend that the student undertake a specific professional assessment of their Fitness to Study;

(c) Where the option is available, (with the student's consent) transfer them to an alternative mode of study, for example part-time, distance learning, or to a different course of study;

(d) Recommend that the student take a voluntary leave of absence;

(e) Referral of the case to Level 3: Serious or Persistent Concern

The outcome of the case review meeting and associated reasons will be sent to the student no more than five (5) working days after the case review meeting has taken place.

4.6 If the student does not agree to take a leave of absence or does not proceed with the recommended action, the matter may be treated as a Level 3: Serious or Persistent Concern.

4.7 Following the case review meeting, the student may provide additional information to the case review attendees within 24 hours of the case review meeting taking place.

5 Procedure Level 3: Persistent or Serious Concern

5.1 Level 3 of the Support to Study Code should be used where there is ongoing concern following Levels 1 or 2, or where there is serious or significant concern about a student's health, wellbeing, behaviour, safety, or ability to study. Where there are serious concerns regarding risk to the health and safety of the student or where there is a perceived threat or serious risk to the student or others, cases may be referred directly to Level 3, without going through Levels 1 or 2.

5.2 A concern will be treated as serious or persistent if:

(a) Earlier intervention at Level 2 has not resolved the concern;

(b) It has become apparent that the concern is significantly more severe than originally anticipated (e.g. if an emerging concern needs to be treated as a serious concern);

(c) The concern is so serious that treating it as a Level 1 or Level 2 concern would not be appropriate;

(d) A student's health or wellbeing is significantly affecting their ability to engage with their studies, placement, or other aspects of university life; or

(e) A student's health or wellbeing is adversely affecting, or is a possible danger to, the health or wellbeing of themselves or others.

5.3 Serious or persistent concerns will be referred to the Group Director Student Services and Administration who will convene and chair a meeting of the Fitness to Study panel ("the Panel").

5.4 The purpose of the Panel meeting is to discuss the circumstances of the concern regarding the student in order to make a recommendation to the Deputy Vice-Chancellor Academic. The Deputy Vice-Chancellor Academic will then decide what, if any, action should be taken.

5.5 The Panel will include a combination of:

(a) The Group Director Student Services and Administration (Chair);

(b) The Student Relations Manager/ Student Conduct Manager;

(c) The Associate Dean/Head of School/Primary Person from Level 1 or Level 2 from where the case has escalated through this Support to Study Code;

(d) Any relevant member(s) of Student Services or Divisions;

(e) A representative of AUTSA;

(f) Additional members who may be required e.g. a member of Student Accommodation Services, a representative of the International Office and other relevant people who have a direct link or support role with the student, and who

hold an appropriate level of responsibility and decision-making authority for the relevant area within the University.

5.6 If a student does not attend, the Panel will be limited to reviewing the information available.

5.7 The Panel may receive the following information:

(a) Identification of the continuing and ongoing serious concern (including specific information);

(b) Collation of any relevant information about the student (e.g. non-attendance, missed deadlines, isolation, issues with other services in the University);

(c) Actions taken so far and their efficacy;

(d) Notes on discussions had with Student Services, the Student Relations team, and the Student Counselling and Mental Health team for advice or guidance on how best to approach the student; and

(e) Subject to privacy law and/or professional codes of confidentiality, any medical reports or other relevant reports on the student.

5.8 The student will be informed of the Panel and its purpose in a clear, written statement at least five (5) working days before the meeting and, subject to privacy law or professional codes of confidentiality, receive the same information made available to the Panel, as well as information on:

(a) The list of attendees of the Panel. Any subsequent changes to the attendees will be communicated to the student prior to the Panel meeting;

(b) The nature of the concern(s) raised and that the matter is being dealt with under Level 3 of this Support to Study Code;

(c) The purpose of the meeting to explore the concern regarding the student's Fitness to Study and whether it can continue to be managed at Level 3;

(d) The procedures for the meeting (which include the recommendation that the student bring a support person and that the student will be invited to respond to the concern);

(e) An explanation that the meeting will be confidential and that personal information relating to the health of the student will only be shared with those who have a direct involvement in the meeting; and

(f) Possible outcomes of the Panel.

5.9 The student will be given a copy of all documents seen by the Panel and will be able to submit documents for the Panel to consider and will be given the opportunity to give their perspective of current issues and (where appropriate) history of events, past experiences, and helpful strategies or support for managing these.

5.10 Where the student has not provided or is not able to provide medical or other evidence as requested, the Panel meeting will proceed on the basis of the information available at the time.

5.11 If the Panel determines that there is a significant concern about a student's health, wellbeing, behaviour, safety, or ability to study, or where there is a perceived threat or serious risk to the student or others, the following outcomes may be applied:

(a) Recommend that the student undertake a specific professional assessment of their Fitness to Study;

(b) Draw up a Support Plan; or revised Support Plan with conditions;

(c) Where the option is available (with the student's consent), transfer them to an alternative mode of study, for example part-time, distance learning, or to a different course of study;

(d) Recommend that the student take a voluntary leave of absence.

(e) Exclude the student from some or all of the University facilities or from entry to the whole or part of University premises for a specified or unspecified period subject to regular review.

(f) Suspend the student temporarily from the University for a specified or unspecified period subject to regular review.

(g) Suspend the student temporarily from attending a placement, a field trip, or year abroad for a specified or unspecified period subject to regular review.

(h) Withdraw the student from the University. This decision must only be made where it has been concluded that there is no reasonable prospect of the student re-engaging with their studies or wider University life, or there is risk of harm to others. The student could, in the future, reapply to study at the University.

5.12 Following the Panel meeting, the student may provide additional information to attendees within 24 hours of the Panel meeting taking place.

5.13 The outcome of the Panel meeting and associated reasons will be sent to the student no more than five (5) working days after the Panel meeting has taken place.

5.14 If the student does not agree to take a leave of absence or does not proceed with the recommended action the Panel may reconvene, or the matter may be referred to the Deputy Vice-Chancellor Academic.

6   Immediate Suspension: Immediate or Serious Risk to the Student or Others

6.1 The Group Director Student Services and Administration may suspend a student for a defined period of time with immediate effect where they have the reasonable suspicion that the student is an immediate danger to themselves or other people. To make this decision the Group Director Student Services and Administration will consult with the Deputy Vice-Chancellor Academic and, where necessary, appropriate members of staff from Student Services, AUTSA, Health and Counselling, Student Accommodation, the International Office and the faculty or school.

6.2 If a student is suspended with immediate effect the Group Director Student Services and Administration will as soon as practicable, convene a meeting of the Panel to consider the matter and make recommendations to the Vice-Chancellor in accordance with Level 3 of the Support to Study Code. The immediate suspension will be reviewed by the Group Director Student Services and Administration and the student will have a right to respond.

7   Return to Study following a leave of absence, exclusion or withdrawal from enrolment

7.1   For a student to return to study following a leave of absence, exclusion or withdrawal from enrolment, the relevant case conference or panel will be reconvened to assess a student's Fitnessto Study.

7.2   The Chair will outline to the student the requirements to be submitted to support an assessment of Fitness to Study. This may include a reflective statement from the student.

7.3.   To ensure a timely assessment process is undertaken and that enrolment arrangements can be managed, the student must indicate a request to return to study at least 20 working days prior to the anticipated commencement of enrolment.

7.4.   The Case Conference or Panel will confirm whether the concern has been sufficiently addressed or managed to enable the student to return to the University, or whether the leave of absence, exclusion or withdrawal should continue with the faculty or school to ensure any specific issues in relation to the programme of study and placements are addressed.

8   Return to Study following suspension from the University

8.1   The Group Director Student Services and Administration and Primary Person will decide whether the student can return to the University or whether the suspension will continue for either a specified or unspecified period. The student's faculty or school will be consulted in relation to any academic or programme-related factors that need to be considered for the student's return to the University. If the student has missed a significant amount of the programme or the programme has changed during the period of suspension, it may be appropriate for the student to return to an earlier stage of the programme.

8.2   The student will be informed of the Panel's decision in writing as soon as possible and normally within 15 working days of receipt of the medical evidence. The student will also be informed of the right to appeal against that decision

8.3   A student suspended under this Support to Study Code will be invited to attend a meeting with appropriate members of faculty or school and Student Services before they return to study. This meeting is to give the student the opportunity to discuss management of their health and wellbeing on their return.

9   Reconsideration and Conclusion

9.1   A student may request a reconsideration of a range of outcomes issued under the Support to Study Code. These include:

(a) The Support Plan with conditions, or revise an existing Support Plan with conditions;

(b) Referral from Level 1 to Level 2

(c) Referral from Level 2 to Level 3

9.2   A request for reconsideration of a case review or panel outcome must be presented in writing within five (5) days of the decision to the Chair of the meeting.

9.3   A student may request a reconsideration of conditions within a Support Plan.

9.4 The student will be advised in writing when their support under the Support to Study Code has concluded. This may include the details about a future return to study.

10 Appeal

10.1 A student who has had their enrolment suspended or who has been withdrawn from the University under this Support to Study Code may, within (14) days of the decision of the Panel or of the Group Director Student Services and Administration or of the Vice-Chancellor, appeal the decision by giving notice to the Vice-Chancellor in writing, on the condition that:

(a) The complainant will only be able to appeal the appropriateness or reasonableness of the penalty; and

(b) The student may only appeal on the grounds that:

(i) The penalty was inappropriate or unreasonable; or

(dd) The right to representation;

(ee) The requirement that any information or document submitted by the student or any other party must be given to the Administrative Secretary at least two (2) days prior to the hearing so that it can be distributed and considered.

10.5 The appeals panel will hear and determine the appeal in such manner as they think proper, having regard to the principles of natural justice. Provided that the appeal hearing will not operate through a rehearing of the complaint.

10.6 The appeals panel has the power to:

(a) Send the complaint or penalty back to the Panel to be reconsidered,

(b) Change, reduce, or increase the actions decided by the Panel,

(c) Dismiss the appeal and uphold the decision of the Panel.

10.7 The decision of the appeals panel will be in writing and will set out the reason/s for the decision which will be sent to all relevant parties.

11 Supporting students who are deemed too unwell to participate under the Support to Study Code

In some circumstances students are too unwell to participate in the Support to Study Code. When a student's enrolment concludes, due to these concerns, prior to commencing a Support to Study Code process, the student may be advised in writing that any future return to study will be managed under the Support to Study Code and any return to study settings.

Calculation of Grade Point Average

1   The University utilises a nine-point grading scale (grade point) in the calculation of the grade point average (GPA).

Grade	Grade Point
A+	9
A	8
A–	7
B+	6
B	5
B–	4
C+	3
C	2
C–	1
D	0
CO	0
DNC	0

2   The grade point average is calculated as follows:

$$\frac{\text{Sum of (grade points for individual course X credit points for the course)}}{\text{Sum of credit points of courses}}$$
