Double Degree Principles:

- Student Hub will notify both faculties when accepting the second offer of place for the student;
- Suggested courses of study/enrolment plans need to be approved by each BoS;
- Each degree is a separate entity for the purposes of advice, progress etc.;
- No more than one major is to be completed in each qualification;
- Students cannot do the same or similar majors in both degrees;
- Students taking the BBus and BDes double degree must achieve the BBus multidisciplinary component by completing the BDes requirements prior to graduating with the BBus, unless having already met the requirements under 1c in the BBus regs.

Below is an example BBus and BDes course of study a student could take. This course of study may change each year/semester due to scheduling of papers.

(Each paper is 15 point unless otherwise stated.)
