### 1. Preferential entry

You may be eligible for preferential entry to the Te Tohu Paetahi mō te Hoahoa – Bachelor of Design if:

- You are a current Year 13 student at a NZ secondary school, and
- You have achieved NCEA Level 2 with Excellence endorsement overall and with an Excellence endorsement in one or more approved art, design or technology subjects, or
- You have achieved a University of Cambridge International Examinations (CIE) AS grade A or B in one or more approved art, design or technology subjects.

This means you won't need to submit a portfolio of art or design work. If you believe you are eligible for preferential entry, apply online and submit your application without a portfolio. If you do need to submit a portfolio visit [aut.ac.nz/portfolio](https://aut.ac.nz/portfolio) for details about what to provide.

If there are more applicants than places available, preference will be given to applicants with the highest academic achievement.

### Preferential entry

You may be eligible for preferential entry if:

- You are a current Year 13 student at a NZ secondary school, and
- You have achieved NCEA Level 2 with Excellence endorsement overall and with an Excellence endorsement in one or more approved art, design or technology subjects, or
- You have achieved a University of Cambridge International Examinations (CIE) AS grade A or B in one or more approved art, design or technology subjects.

This means you won't need to submit a portfolio of art or design work. If you believe you are eligible for preferential entry, apply online and submit your application without a portfolio.

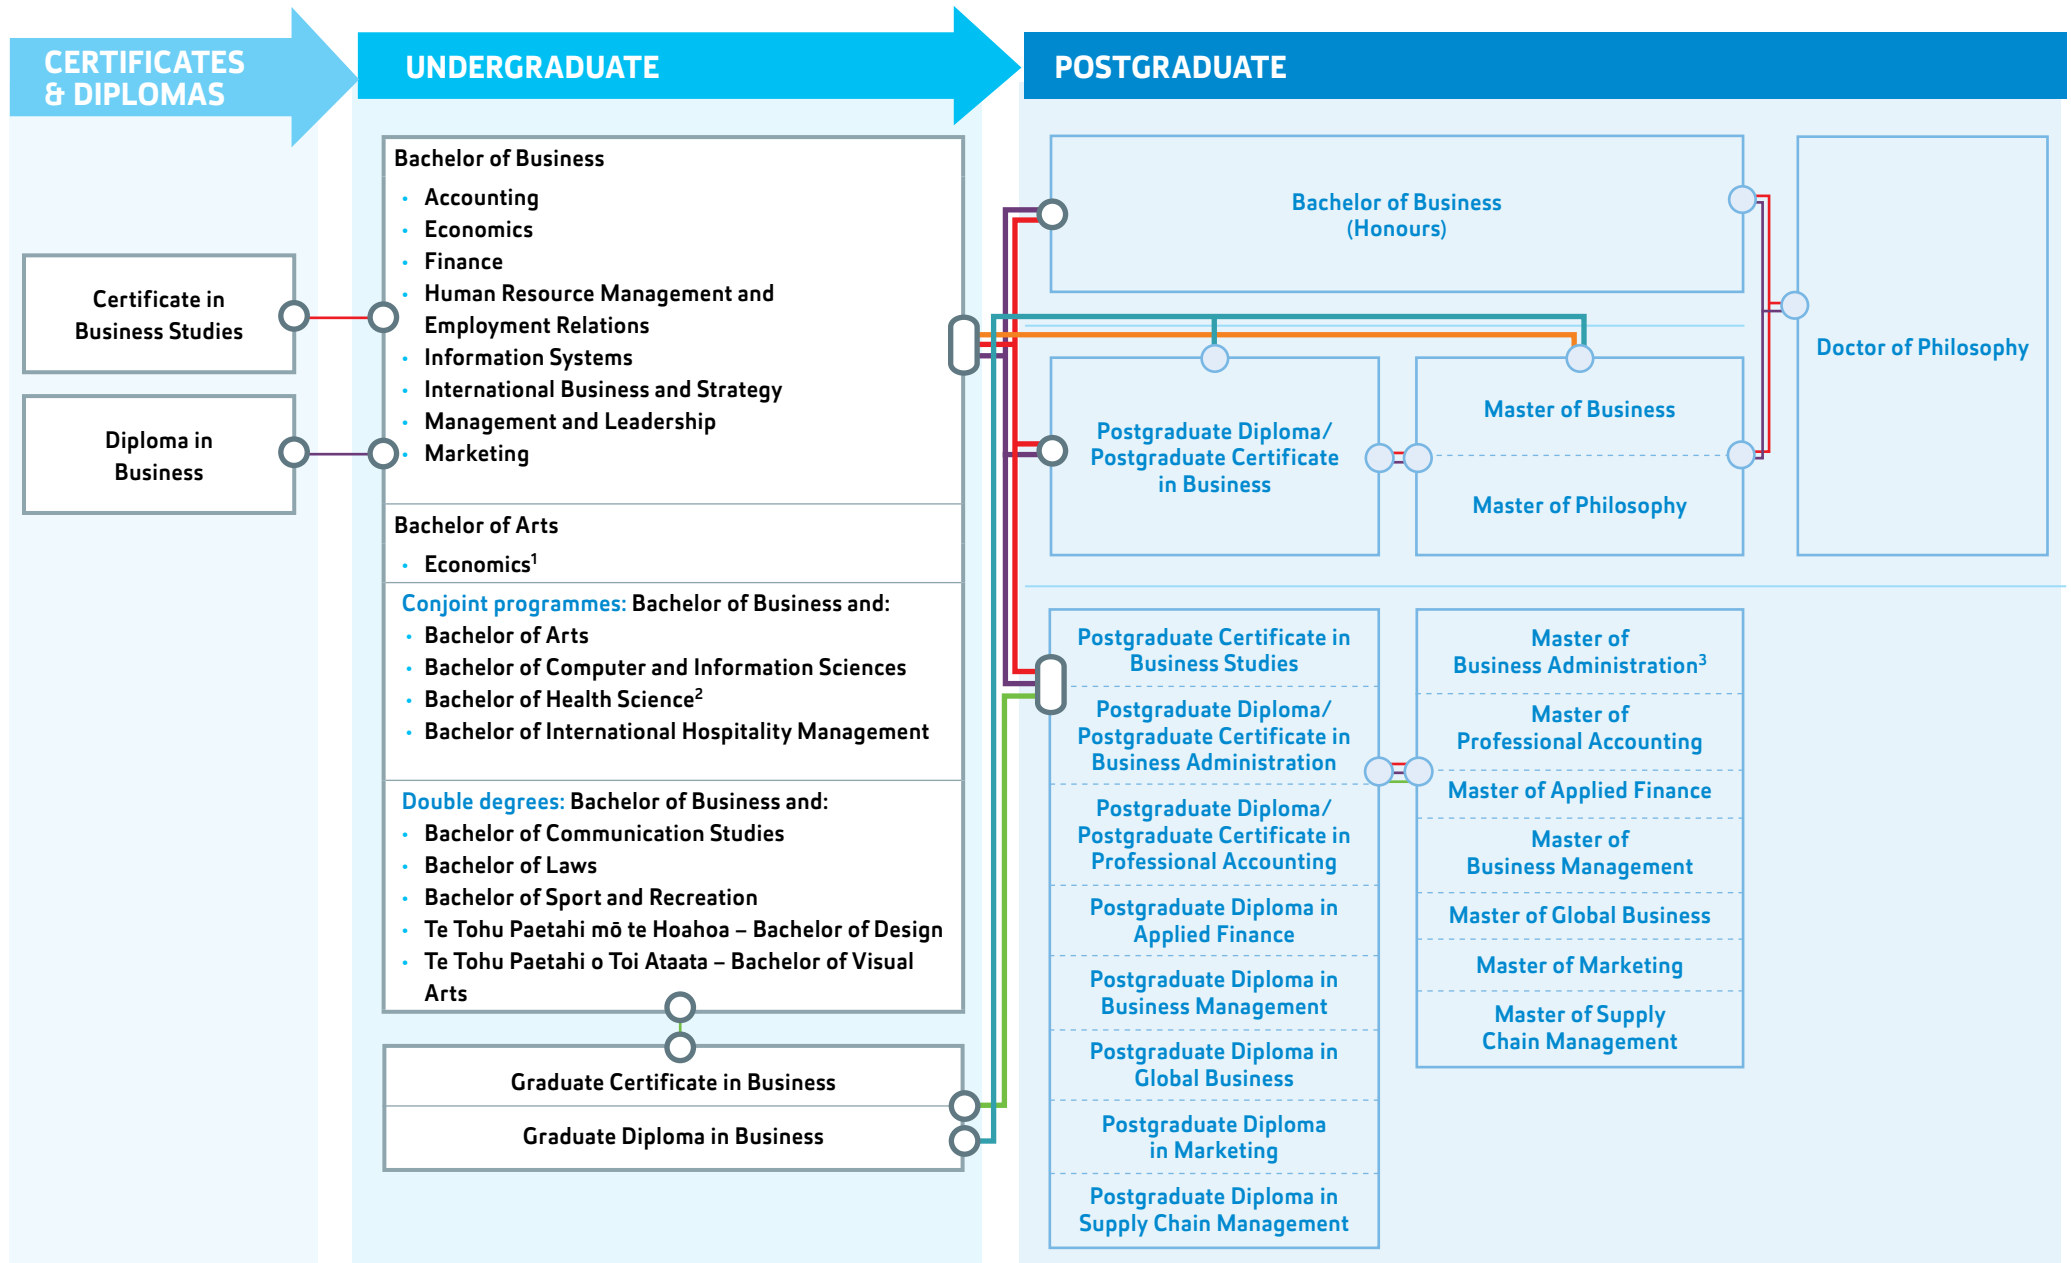

1. Acceptance into this programme is based on academic achievement and the work submitted in a portfolio. Although we will continue to accept applications until all places are filled (up to the start of Semester 1, 2023), those who submit their full applications, including a portfolio of creative and design work, by 30 September 2022 will be prioritised. Applications received after this date will only be considered if there are places available and upon meeting all programme entry requirements.
2. For portfolio guidelines visit [aut.ac.nz/portfolio](http://aut.ac.nz/portfolio)

If there are more applicants than places available, preference will be given to applicants with the highest academic achievement.

# HEALTH SCIENCES QUALIFICATIONS AND STUDY PATHWAYS

1. All students will be enrolled in the Bachelor of Health Science without a major in the first semester (intermediate semester) and after this can apply for a place in their chosen pathway for the rest of their studies.

2. Only available for Bachelor of Health Science students majoring in Psychology.

**Note:**

1) Completion of one qualification doesn't guarantee entry to a higher-level qualification.

2) Apply for the qualification you are best suited for – you don't necessarily have to enrol in the qualification that appears at the left of the above diagram.

3) Some qualifications in the above diagram may be prerequisites to – and not credit towards – higher-level qualifications.

International students who have not met the general academic qualifications for direct entry into AUT programmes can enrol in AUT's Certificate in Foundation Studies from UP International College NZ or AUT's pathway certificates and diplomas.

For more information contact [aut.ac.nz/enquire](http://aut.ac.nz/enquire) or phone **0800 AUT AUT** (if in New Zealand) or **+64 9 921 9099** (if overseas).

Key: ■ Main pathway to this degree or subject area ■ Possible pathway to this degree or subject area

Certificate and diploma places are limited. Preference for entry will be given to students aiming for the degrees represented by the 'main pathway' boxes.

Please note that completing a certificate or diploma doesn't guarantee you a place in your preferred bachelor's degree, as degree places may be limited.

## ENGLISH LANGUAGE REQUIREMENTS

**Students whose first language is not English, Māori or NZ Sign Language need to prove they have the minimum level of English required to enrol in their chosen AUT qualification.**

**International students studying at secondary schools and applying for UE through NCEA, CIE or IB must apply using the English requirements of that qualification.**

IELTS (Academic) results may also be required for AUT degrees with professional bodies that use IELTS (Academic) as their literacy measure, eg the Bachelor of Health Science (Midwifery, Nursing, Occupational Therapy, Oral Health, Paramedicine, Physiotherapy). IELTS (Academic) is also the preferred English test for all other AUT qualifications. For more details, refer to [aut.ac.nz/englishrequirements](https://aut.ac.nz/englishrequirements)

Initial teacher education programmes require a higher level of English language requirements than similar level programmes, and these requirements are set by the Teaching Council. There are several ways you can meet these requirements, including several test options available. Visit <https://teachingcouncil.nz/getting-certificated/for-beginning-teachers/language-competency-requirements/>

International students who do not meet the English language requirements for entry into an AUT programme, can study English at AUT. AUT International House offers a range of qualifications, including GIE, the AUT academic pathway and preparation programme which prepares students for undergraduate and postgraduate study, as well as IELTS academic preparation courses. For more information, visit [aut.ac.nz/international/international-house-english-language-school](https://aut.ac.nz/international/international-house-english-language-school)

These are the minimum grades you need to meet the English language requirements for certificates, diplomas and bachelor's degrees at AUT. Some programmes have higher English language requirements – refer to the table on the following page for more details.

| QUALIFICATION LEVEL | IELTS SCORES  | CERTIFICATE IN ENGLISH FOR ACADEMIC STUDY GRADES   | GIE GRADES  |

## RANK SCORES

### AUT programmes with rank scores

The Bachelor of Engineering (Honours) uses a rank score as part of their entry requirement process.

#### Bachelor of Engineering (Honours)

**Guaranteed entry:** Applicants will automatically be offered a place in this programme if they have a rank score of 250 or higher, along with 14 NCEA level 3 credits in each of Calculus and Physics or CIE A levels in Mathematics and Physics. All other applicants who have met the admission requirements will be considered on a case-by-case basis.

### How we calculate the rank score

#### NCEA

- 80 best level 3 NCEA credits in University Entrance approved subjects are weighted by level of achievement
- No more than 24 credits per subject will be counted
- If a student achieves fewer than 80 credits at level 3 or higher, the score will be calculated on achieved credits

**Excellence:** 4 points

**Merit:** 3 points

**Achieved:** 2 points

Note: Excellence and Merit credits are counted first, followed by the required number of Achieved, up to the maximum total of 80 credits.

#### Cambridge International Examinations (CIE)

- Based on the student's UCAS Tariff score
- No more than six subject units over the last two years of study will be counted in subjects at AS, A2 or A level from subjects that match the NCEA University Entrance approved subjects
- The rank score may differ from the UCAS Tariff used for University Entrance because only subjects equivalent to NCEA approved subjects will be used for calculating
- An A level counts as two subject units and an AS level counts as one subject unit. Students who have studied more than six subject units can count only the six best scores

#### International Baccalaureate (IB)

- The student must have achieved the IB Diploma (24 points)
- We will evaluate students on the number of points achieved above 24
