# WELCOME

We're pleased to deliver our annual update of the Career Advisor Guide for 2025.

This guide provides an accessible summary of AUT's undergraduate programmes. An electronic version of this guide can also be found on the career advisors' section of our website, alongside the Prospectus and programme guides.

Please don't hesitate to get in touch with your relationship manager for clarification or more detail regarding any of the information in this guide.

This information is correct as of December 2023. For the most up-to-date programme information please refer to [aut.ac.nz/careeradvisors](https://aut.ac.nz/careeradvisors)

Kind regards,

- **Construction Engineering** major is now called the **Civil Construction Engineering** major
- **Electrical Engineering** major in the Bachelor of Engineering Technology is now called the **Electrical and Electronic Engineering** major
- **Spatial Design** major is now called the **Spatial and Interior Design** major

## DEGREE BUILDER FOR SOME PROGRAMMES

Some of our bachelor's degrees offer extra flexibility and enable students to include subjects from another area at AUT as part of their degree. Students can complete these programmes in three years full-time, so in a shorter timeframe than conjoint programmes. Students can see what their three years of study could look like by using the degree builder for these programmes on the AUT website. Look out for this icon  in this publication to see which programmes offer this flexibility and then visit the relevant programme page on the AUT website to try out our degree builder. For more information refer to [aut.ac.nz/degreebuilder](https://aut.ac.nz/degreebuilder)

## Cover

The cover design represents a tukutuku (ornamental lattice work) panel with the Poutama pattern woven onto it. This pattern symbolises levels of attainment, advancement, and personal growth, striving for betterment. The Poutama reflects what AUT does for its students: educate, guide and support them on their journey into a future they define, and we prepare them for. The perspective of the design enhances the concept of the journey. The overlaid design elements on top of the cover pattern show commitment to Te Tiriti o Waitangi and Te Ao Māori being at the foundation of everything; an underlying base to support and enhance all aspects of AUT.

Certificate and diploma places are limited. Preference for entry will be given to students aiming for the degrees represented by the 'main pathway' boxes.

Please note that completing a certificate or diploma doesn't guarantee you a place in your preferred bachelor's degree, as degree places may be limited.

# ENGLISH LANGUAGE REQUIREMENTS

**Students whose first language is not English, Māori or NZ Sign Language need to prove they have the minimum level of English required to enrol in their chosen AUT qualification.**

**International students studying at secondary schools and applying for UE through NCEA, CIE or IB must apply using the English requirements of that qualification.**

IELTS (Academic) results may also be required for AUT degrees with professional bodies that use IELTS (Academic) as their literacy measure, eg the Bachelor of Health Science (Midwifery, Nursing, Occupational Therapy, Oral Health, Paramedicine, Physiotherapy). IELTS (Academic) is also the preferred English test for all other AUT qualifications. For more details, refer to [aut.ac.nz/englishrequirements](https://aut.ac.nz/englishrequirements)

Initial teacher education programmes require a higher level of English language requirements than similar level programmes, and these requirements are set by the Teaching Council. There are several ways you can meet these requirements, including several test options available. Visit <https://teachingcouncil.nz/getting-certificated/for-beginning-teachers/language-competency-requirements/>

These are the minimum grades you need to meet the English language requirements for certificates, diplomas and bachelor's degrees at AUT. Some programmes have higher English language requirements – refer to the table on the following page for more details.

# RANK SCORES

## AUT programmes with rank scores

The Bachelor of Engineering (Honours) uses a rank score as part of their entry requirement process.

### Bachelor of Engineering (Honours)

**Guaranteed entry:** Applicants will automatically be offered a place in this programme if they have a rank score of 250 or higher, along with 14 NCEA level 3 credits in each of Calculus and Physics or CIE A levels in Mathematics and Physics. All other applicants who have met the admission requirements will be considered on a case-by-case basis.

### Health science degrees

The popular health science degrees give preference to the highest level of academic achievement (highest performing students). While there is no set rank score for guaranteed entry, where a qualification is over-subscribed, rank scores may be considered as one of the factors in assessing applications.

## How we calculate the rank score

### NCEA

- 80 best level 3 NCEA credits in University Entrance approved subjects are weighted by level of achievement
- No more than 24 credits per subject will be counted
- If a student achieves fewer than 80 credits at level 3 or higher, the score will be calculated on achieved credits

**Excellence:** 4 points

**Merit:** 3 points

**Achieved:** 2 points

Note: Excellence and Merit credits are counted first, followed by the required number of Achieved, up to the maximum total of 80 credits.

### Cambridge International Examinations (CIE)

- Based on the student's UCAS Tariff score
- No more than six subject units over the last two years of study will be counted in subjects at AS, A2 or A level from subjects that match the NCEA University Entrance approved subjects
- The rank score may differ from the UCAS Tariff used for University Entrance because only subjects equivalent to NCEA approved subjects will be used for calculating
- An A level counts as two subject units and an AS level counts as one subject unit. Students who have studied more than six subject units can count only the six best scores

### International Baccalaureate (IB)

- The student must have achieved the IB Diploma (24 points)
- We will evaluate students on the number of points achieved above 24
