

# Discover. Learn. Celebrate.

## Human Factors and Ergonomics

An innovative and collaborative new postgraduate programme based at AUT and including courses from Otago, Canterbury, Victoria, Massey University, University of Auckland, and the UK.

Tuesday 21st May

2.00–4.00pm

### Discovery Expo

- **Visit** presentations, demonstrations, and activities to witness Human Factors and Ergonomics (HFE) in action
- **Interact** with professionals, researchers, and experts to understand HFE applications
- **Try out activities** related to robotics, AI, biomechanics, organisational design, and tool design to see the importance of HFE
- **Explore** real-world examples of HFE in injury prevention, fatigue management, and work performance across various industries
- **Connect** with teaching staff from different universities experienced in HFE topics
- **Learn** about HFE education opportunities in New Zealand, including the postgraduate programme and introductory education
- **Join** the Human Factors and Ergonomics Society of New Zealand (HFESNZ) for access to resources and community engagement

4.00–6.00pm

### Launch Celebration

Join us to celebrate the development of the accredited HFE postgraduate programme. Enjoy light refreshments, short presentations and networking opportunities.

**Find out about the exciting things you can learn if you choose to study HFE.**

Tuesday 21st May 2024

**WG201 Open Forum**  
**Sir Paul Reeves Building**  
AUT City Campus  
55 Wellesley Street East  
Auckland

Scan the code to book your FREE tickets or search **HFE Discover** on [eventbrite.co.nz](https://www.eventbrite.co.nz)

Tickets make it easier for us to keep in touch with you after the event. However, you're welcome to attend the expo without a ticket.
