

AUT GLOBALLY

AUT is a contemporary New Zealand university focusing on student success, research and industry connectivity. It is the second largest university in the country, and has a strong and established reputation as an institution of global standing and impact.

AUT has a five star QS rating and is ranked 15th in the world for international outlook by Times Higher Education (THE). This not only puts AUT at the top in New Zealand for international outlook, but also at the top of Australasia.

Our success as a university is built on our ability to forge strong partnerships with individuals, institutions and organisations worldwide. These partnerships create opportunities for research collaboration by bringing together the best minds to address issues of global importance and deliver outcomes with maximum impact.

AUT has provided customised training programmes to government leaders, teachers, civil servants, executive leaders and leaders of private companies across the globe for over 20 years.

"AUT is a university for the changing world; an increasingly powerful force for the learning and discovery that promotes the wellbeing of people and their environments and provides them with opportunities to expand and achieve their aspirations."

- Strategic Plan 2012 - 2016

INTERNATIONAL RELATIONS & DEVELOPMENT

“AUT’s primary focus is students, their learning experiences and success.”

International Relations & Development works closely with all international activities and initiatives across the university and is the first point of contact for global engagement initiatives.

The team is responsible for the further development of relationships established by faculties and for strengthening international alliances and partnerships to support collaboration and exchange with leading institutions. They provide expert advice and guidance to the broader university on the development of international relations strategies and the establishment of formal relationships and partnerships. We wish to acknowledge Chris Hawley, retired Director of International Relations & Development, for his significant work done for the department and his continued support and contribution.

THE INTERNATIONAL RELATIONS & DEVELOPMENT TEAM

GLOBAL LINKS

Global partners allow AUT to develop strategic links with world-renowned institutional partners, industry bodies, NGOs and government representatives.
