MY AUT ENROLMENTS USER GUIDE

Your enrolments experience that was previously on Arion is now also accessible through My AUT – your personalised space for enrolment and personal information, making bookings, seeing the latest news and events, and connecting with your AUT community.

Simply navigate to ‘My account’ and then ‘My enrolments’ on My AUT or the main menu in the AUT App to explore this experience. We recommend using a desktop device to select and enrol in your courses as you will be navigating My AUT and other AUT platforms for course selection.

YOUR MY ENROLMENTS SCREEN OVERVIEW

1. Select courses

You can find information about which courses you should enrol in on your faculty Canvas page. This includes links to our course search tool and course descriptors that provide an overview of the course topic, assessments and points towards your qualification.

2. Add courses

Enrol in courses that are compulsory for your programme or in elective courses that match your interests. Depending on the programme you're studying you'll either select individual courses or a block of courses. Keep scrolling for a step-by-step user guide to walk you through this process.

3. Choose class times

Many courses offer different class times that you can choose from to fit in your schedule. If you notice a clash in your timetable, you can look to see if there are classes offered at different times for that course.

4. Current and past enrolments

These are courses you're currently studying or have selected for upcoming semesters, and courses you have completed. If you want to review the details of what your courses cover, click on the course.

5. Make changes to your courses or classes

You can change your courses and classes yourself in My AUT until you have been invoiced for them. Once you have been invoiced for your course, you will need to submit change requests through the Course and Programme Amendment Form.

6. Make changes to your programme

If you want to change the programme you are studying, or the subject, we recommend talking to your faculty before you make any changes.

7. Enrolment enquiries

If you have questions about which courses you should take, or the process of enrolling, you can reach out to your faculty for help – simply click on the enrolments enquiry button on the screen.

When you select 'Block course enrolment' and have selected the teaching period, follow these steps:

2. Select a recommendation

You will now see a block of courses you should take at this point of your studies. This set of courses was chosen for you by your faculty to align with the programme pathway you're studying.

Changing your subjects or programme

If you're considering changing your programme or the subjects you're studying as part of your programme, it's a good idea to contact your faculty before you make any changes.

Depending on how far through your qualification you are, changing your major or minor could mean that you need to study extra courses to meet your programme requirements, which could delay when you can graduate.

You can also book an appointment with an employability specialist at the Employability Lab to discuss what this change may mean for your future career opportunities.
