Auckland Foundation Year

2019 international
student prospectus

Your pathway
to a degree from
New Zealand's
top universities

“
I am glad to have this opportunity to introduce Taylors College Auckland.

We have a vibrant campus in the heart of one of the world's most beautiful and liveable cities. We have a wealth of experience in preparing students for university study in New Zealand and we provide a caring and supportive learning environment that allows students to reach their potential, academically and personally.

The Foundation Studies Certificate (Auckland Foundation Year - AFY) is a qualification of the University of Auckland offered through Taylors College, Auckland. In addition to its partnership with the University of Auckland, Taylors has formal agreements with two other leading New Zealand universities: AUT University and Massey University. Provided you meet the requirements, you are guaranteed admission to almost all of the full range of degree programmes at any of these three universities.

We have an outstanding record of success in terms of the numbers of our graduates gaining entry to university in New Zealand. Whether your goal is to improve your English, or to take the first step towards a university education abroad, I sincerely hope that Taylors Auckland will be part of that journey. I look forward to welcoming you to our campus.

Lindsay Spedding
Principal

Start your career Auckland Foundation Year

Offered by Taylors College Auckland, the Auckland Foundation Year (AFY) is a comprehensive university preparation programme which enjoys a strong reputation for excellence in teaching and student support. Our partnership with three well-respected New Zealand universities will give you the first step towards an undergraduate degree of your choice, and ultimately your dream career. You will also enjoy student life in one of the most liveable cities in the world.* For more support, you may choose the Pre-Foundation programme before commencing the AFY qualification.

Whether you want to study at a top 100 university in the world, or complete a globally recognised and highly ranked degree, you are sure to find a course that will put you on your path to a successful career.

Strong partnerships

We have partnerships with three of New Zealand's leading universities:

- › The University of Auckland
- › AUT University
- › Massey University

Guaranteed entry

Our programme fully prepares you for your university studies and ensures you have the best foundation for a successful career in the future. Provided you meet the university entry requirements after completing the AFY programme, you are guaranteed admission to a wide range of degree programmes at our partner universities.

Freedom to choose

The opportunity to select between three universities gives you several campuses and hundreds of degrees to choose from.

You don't need to know which university you want to go to before you join Taylors College Auckland. During your year with us, you will become familiar with our partner universities by touring their campuses and attending lectures and university open days. Staff from each university visit Taylors College Auckland to talk to you about their courses and answer any other questions you may have.

You'll feel welcomed

Our students come from all over the world. With so many people from different backgrounds and cultures, studying at Taylors College Auckland is exciting and rewarding – we think you'll love it!

A learning experience like no other

We provide a dynamic and interactive learning environment. Our flexible schedule allows you to have a personalised timetable with one-to-one tutorials.

Highly experienced staff

Our staff are highly skilled in supporting international students. They will help you to organise your studies, select the right university course and help with any challenges you may encounter. For more information, please visit taylorsauckland.ac.nz

A huge range of study options

As well as our three partner universities, all other universities in New Zealand recognise the AFY qualification. This gives you a huge range of study options.

Quality assurance

Study Group NZ Limited, trading as Taylors College and Embassy English, was ranked Category 1, the highest category for quality assurance in 2015, by the New Zealand Qualifications Authority (NZQA). nzqa.govt.nz/providers/details.do?providerId=745933001

AFY key facts:

Partnership with three leading universities in New Zealand

The AFY qualification is accepted by all universities in New Zealand

A welcoming, dynamic and interactive learning environment

* Mercer Quality of Living Survey 2018

Achieve your very best

Thanks to strong support, individual attention, high-quality teaching, modern facilities and expert teachers, the number of AFY students who receive an offer from a tertiary institution is consistently high.

Top performing students from 2017*

Name	Nationality	Final Mark	University Offer Accepted
Yuwei	China PRC	483	University of Auckland, Bachelor of Engineering (Honours), Dux Scholarship
Mai Han	Vietnam	480	University of Auckland, Bachelor of Science, Dux Scholarship
Dan Chau	Vietnam	476	University of Sydney, Bachelor of Arts
Ziheng	China PRC	474	University of Melbourne, Bachelor of Commerce
Haoyu	China PRC	473	University of Auckland, Bachelor of Commerce
Kezia Isabelle	Indonesia	472	University of Auckland, conjoint Bachelor of Arts and Commerce
Yuechen	China PRC	470	Massey University, Bachelor of Veterinary Science
Ngoc Van Thao	Vietnam	467	Auckland University of Technology, Bachelor of International Hospitality Management
Valerie Evangelista	Indonesia	465	University of Auckland, conjoint Bachelor of Commerce and Science
Jia Xuan Valencia	Malaysia	464	Massey University, Bachelor of Veterinary Science

* Includes students from all 2017 intakes

Outstanding results

For the last four consecutive years, over 90% of our students received an offer from a tertiary institution.

A highly respected qualification

As well as our three partner universities, all universities in New Zealand recognise the AFY qualification.

A guaranteed pathway to university

By successfully completing the AFY programme and meeting minimum entry requirements, you are guaranteed a place at the University of Auckland, AUT University or Massey University.

Strong support

Our tertiary counsellor gives you friendly and professional university counselling, organises regular visits to partner universities and assists with your university application.

Individual attention

We limit the number of students in each lesson, which allows our academic staff to provide you with more individual attention, maximising your academic performance.

Improve your English language skills

We offer English Language Preparation (ELP) if you need to develop your English skills before you start your foundation course.

The University of Auckland

‘Enjoy the challenge at one of the world’s top 100 universities’

auckland.ac.nz

“The University provides an exciting and stimulating environment for its students. Currently, 7,900 international students are studying at the University of Auckland, testimony to both the University’s comprehensive range of research-based study programmes and the recognition they are receiving internationally.

Professor Stuart McCutcheon
Vice-Chancellor,
The University of Auckland

Established in 1883, the University of Auckland is New Zealand’s top-ranked university and a global leader for research and academic reputation. Situated in the heart of New Zealand’s largest city, it is an international centre of learning and academic excellence.

The University of Auckland is New Zealand’s top-ranked university. It is a QS Five Stars Plus institution, having achieved five stars in eight categories including Employability, Teaching and Research.* It is also the only New Zealand university ranked in the top 100 in the QS World University Rankings. The University of Auckland is also ranked in the top 50 in the world for 18 subjects in the QS World University Rankings by Subject 2018.

The University of Auckland has a strong international focus and is the only New Zealand member of Universitas 21, the Worldwide Universities Network (WUN), and the Association of Pacific Rim Universities – an international consortium of research-led universities.

Membership of these groups is by invitation only and is limited to research-led institutions of international reputation across a broad range of disciplines.

A highly successful environment

The University’s comprehensive range of research and coursework-based programmes is internationally recognised. Graduates of the University of Auckland occupy leading positions in Business, Law, Medicine, Politics, Arts, Engineering and other professions within New Zealand and overseas.

A truly global experience

The University provides an exciting and stimulating environment for more than 42,000 students. Currently 7,900 international students from 120 different countries are studying at the University of Auckland. Their different perspectives and cultures enrich the entire University community.

Five campuses, eight faculties

The University’s faculties are located over five campuses in Auckland, with most students attending the central City Campus. The eight faculties are **Arts, Business, Creative Arts and Industries** (includes Architecture, Dance Studies, Fine Arts, Music and Urban Planning), **Education and Social Work, Engineering, Law, Medical and Health Sciences**, and **Science**.

“Taylors College helped me adjust to the way of life in New Zealand and it really helped me get used to the work culture here, so it gave me a good platform as an entry to university life here in Auckland.

Marcus from Malaysia

AFY graduate, now studying a Bachelor of Computer Science at the University of Auckland

Ranked 1st in New Zealand and number 71 worldwide in the QS Graduate Employability Rankings 2019

Ranked 85th among the world’s top universities*

Ranked in the world’s top 50 universities for 18 subjects**

Why choose the University of Auckland?

AUT University

'Committed to global engagement'

aut.ac.nz

“AUT University is a diverse university, engaged with industry, business and the community. Our high-quality teaching staff, innovative facilities, learning support and contemporary programmes help us to produce highly employable graduates.

Derek McCormack
Vice-Chancellor, AUT University

AUT University traces its roots back to 1895 as the country's leading Institute of Technology. It earned university status in 2000, and is ranked in the top 2% of universities globally in QS 2019. AUT University is the number one millennial University in New Zealand and ranked in the top 30 in the world, based on the quality of teaching, research, citations, international outlook and industry income*.

AUT is a contemporary New Zealand university focusing on student success, industry connectivity and innovative research in areas such as biotechnology, artificial intelligence and nutrition.

AUT is the second largest university in New Zealand and the fastest growing. We have over 30,000 educators, researchers and students who come to us to test boundaries, challenge established theories, break new ground and discover what is possible. AUT is accredited by the New Zealand government and welcomes and values our international students and staff.

Our students

Currently we have approximately 4,200 international students from more than 95 countries who will graduate with technical expertise but also the ability to adapt, be resilient, have conviction and think and act entrepreneurially. Worldwide our 80,000 alumni are making waves in some of the most influential and creative companies. With over 47 international exchange partners, students have the opportunity to study in another country and transfer credits back to their AUT degrees. An extensive range of support services are available for our students, including health services, orientation, social events, academic support and careers counselling.

Campuses

We have three vibrant campuses located in Auckland, voted by Mercers 2018 Worldwide Quality of Living Survey as one of the top 5 cities in the world to live in. Auckland is also the commercial capital of New Zealand.

Faculties

Our five faculties (**Business, Economics & Law, Culture & Society, Design & Creative Technologies, Health & Environmental Sciences** and **Maori Development**) offer over 250 programmes from pre-degree to PhD.

“Taylors College pushed me hard to learn English. I was aiming to study Digital Design at AUT University, and they helped me create a portfolio, and gave me lots of tips for what I should do, so they are really practical.

Ayaka from Japan

AFY graduate, now studying a Bachelor of Art and Design: Digital Design at AUT

AACSB accredited Business School. Accounting & Finance are ranked in the top 150**

Hospitality and Sports are ranked in the top 50, and Nursing in the top 100 worldwide**

Five star ranking in Teaching, Employability, Internationalisation, Facilities and Inclusiveness*

Why choose AUT?

- › Ranked in the top 2% worldwide by QS 2019
- › Five star ranking in Teaching, Employability, Internationalisation, Facilities and Inclusiveness*
- › Several subjects are ranked in the world's best**, including:
 - Hospitality – top 50
 - Sports – top 50
 - Nursing – top 100
 - Art/Design – top 150
- › Ranked 15th in the world for International Outlook^
- › World-class bespoke facilities and renowned academics
- › Excellent research facilities and a strong research culture
- › Accredited by the New Zealand Government
- › Programmes are developed in conjunction with industry to ensure they reflect current and future workforce needs - guaranteeing a high graduate employment rate
- › More than 30,000 students
- › A strong focus on student success, industry connectivity and innovative research in areas such as biotechnology, artificial intelligence and nutrition
- › An extensive range of support services
- › The second largest university in New Zealand and the fastest growing
- › Study abroad, internship and exchange programmes

Massey University

‘Creating a better society for citizens across the world’

massey.ac.nz

“

Massey University epitomises the creativity, innovation and connectedness that New Zealand is renowned for. Our campuses in three major cities and our range of programmes mean we offer you the ability to tailor your study to meet your needs and at the same time connect closely with industry, professional organisations and local communities. I warmly invite you to be part of our diverse and stimulating student community.

Professor Jan Thomas
Vice-Chancellor, Massey University

Ranked in the top 1.3% of universities in the world*, Massey University has a long and proud tradition of academic and research excellence. With campuses in three cities across New Zealand we foster and push for positive change, taking our creativity and innovation to every corner of the globe.

The University’s expertise embraces a broad span of fields. We are highly rated in Art and Design, Business, Veterinary Science, Agriculture and other applied Biological Sciences.

New Zealand’s defining university

At Massey University, we believe that everyone has the potential to help create change – and that includes you. By joining Massey you are making a decision to carry on a tradition that has made significant contributions around the world. We will help you get the skills and confidence you need to make a difference.

Internationally renowned global university

We have award-winning teachers, well-connected lecturers and world-renowned researchers to help you succeed. Our qualifications are internationally recognised, and many of our qualifications have international accreditation.

We have agreements with institutions worldwide, covering a variety of relationships from collaborative research to teaching, study abroad, and staff and student exchanges.

Welcoming community

Each year, more than 5,000 international students from over 100 countries find a welcoming environment at Massey and an intellectual climate in which they are encouraged to succeed. We offer undergraduate study awards for students who have achieved exceptional marks in AFY.

Campuses

With three campuses in three unique cities: Auckland, Palmerston North and Wellington, it’s your choice of how and where you study.

Academic colleges

Study internationally recognised qualifications in our five colleges: **Business** (includes Aviation), **Creative Arts** (includes Design and Commercial Music), **Health** (includes Nursing, Food Technology, Sport Science), **Humanities and Social Sciences** (includes Education, Psychology) and **Sciences** (includes Veterinary Science, Engineering, Mathematics, Sciences).

“

Massey is a very good university. The campus buildings are modern and beautiful, and the labs and classrooms are well equipped. Taylors College Auckland helped me to successfully transition into Massey University and my dream for the future is to work in a food company.

Nicole from China

AFY graduate, now studying Food Technology at Massey University

Ranked in the top 50 in the world for Agriculture and Veterinary Sciences*

Ranked in the top 1.3% universities in the world^

The College of Creative Arts (CoCA) is one of the top 100 Art and Design schools in the world*

Why choose Massey?

- › Ranked in the top 1.3% of universities in the world^
- › A five-star rating across all categories in the QS Rankings 2018
- › Research-led teaching, outstanding student support services and high-quality facilities
- › Award-winning teachers, well-connected lecturers and world-renowned researchers
- › Exchange agreements with over 200 institutions around the globe
- › The College of Creative Arts (CoCA) is one of the top 100 Art and Design schools in the world, and is ranked a top 2 university in Asia-Pacific for design innovation**
- › Ranked highly for degrees such as:
 - Agriculture – 22nd
 - Veterinary Science – 23rd
 - Art and Design – top 100
 - Development Studies – top 100
- › A top 2% business school globally and accredited by the Association to Advance Collegiate Schools of Business (AACSB)
- › Bachelor of Engineering is recognised and accredited by the Washington Accord and the Institute of Professional Engineers New Zealand (IPENZ)
- › Our Aviation (Air Transport Pilot) degree is the first non-engineering degree to be recognised by the Royal Aeronautical Society and has ISO9001-2000 accreditation

Explore New Zealand

Our friendly and diverse people, the accessibility of our landscape and the enormous range of leisure and lifestyle options make New Zealand an exciting and vibrant place to live and learn.

Experience a wide variety of epic landscapes in one day.

Explore the great outdoors

New Zealand is the perfect location for people who love the outdoors. Hiking, camping, mountain biking, snowboarding, snorkeling, horse trekking, kayaking, swimming and surfing are all popular outdoor activities in our wonderful country. Don't miss going whale watching or swimming with dolphins!

Discover incredible scenery

In New Zealand, you can experience a wide variety of epic landscapes in one day. Breathtaking glaciers, beautiful fjords, rugged mountains, hills, forests, volcanoes, miles of coastline with gorgeous sandy beaches - you can discover it all!

Enjoy many hours of sunshine

New Zealand has opposite seasons to those in the northern hemisphere. January and February are the warmest months, and July is the coldest month of the year. New Zealand has mild temperatures, moderately high rainfall, and many hours of sunshine.

Employment opportunities

After graduating from a New Zealand university, you can apply for a three-year open work visa. For more information, visit immigration.govt.nz.

Experience a buzzing city

Auckland is New Zealand's largest and most cosmopolitan city. It is also one of the most multicultural cities in the world.

Ranked 5th best city in the world to live in (Mercer Quality of Living Survey 2018)

The most ethnically diverse city in New Zealand, with more than 200 nationalities

Auckland ranked 4th most cosmopolitan city in the world in the International Organisation for Migration's 2015 World Migration Report

Home to 28 beaches and 800 parks and reserves

ALBERT PARK

SKY TOWER

DEVONPORT

AUCKLAND HARBOUR

PONSONBY CENTRAL

Feel welcome in this multicultural city with great food, shopping, parks and entertainment.

Live life to the fullest

New Zealand is a melting pot of nationalities and cultures. People are friendly and welcoming. You will immediately feel part of our wonderful, multi-cultural city that offers many exciting activities for you to experience when you are taking a break from your studies.

- › Go shopping in one of the many vibrant shopping precincts
- › Eat outstanding food at an amazing number of restaurants and cafés
- › Spend time at the lively markets
- › Experience bustling nightlife
- › Visit the Sky Tower's spectacular viewing platforms
- › See Maori cultural performances in the Auckland Museum
- › Go to Auckland Zoo

Mix city life with outdoor activities

Auckland is also close to beautiful beaches, wildlife sanctuaries, hiking trails and islands, offering great opportunities for you to immerse yourself in nature.

Get more for your money

The living costs in New Zealand are affordable compared to many other countries. For information on living costs and the minimum financial requirements for a visa visit newzealandnow.govt.nz/living-in-nz/money-tax/comparable-living-costs

Enjoy state-of-the-art facilities

Your campus

You will be taught at Taylors College Auckland which provides state-of-the-art learning facilities and a high quality learning experience.

Central location

Auckland's harbour setting, magnificent beaches and green parks make it a great place to study. Our campus is located in the heart of the city, close to the public library, cinemas, shops, restaurants and everything you need for a great life in the city.

Transport

The campus is easily accessible by car, bus or on foot. It is also served by the public transport network; more information can be found at at.govt.nz/bus-train-ferry

State-of-the-art facilities

Our excellent facilities on our well-equipped campus enable you to achieve your very best while you are studying with us:

- › Art and design studio
- › Computer laboratories
- › Science laboratories
- › Interactive whiteboards
- › Library
- › Common room with table tennis and pool tables
- › Muslim prayer room
- › Wi-Fi Internet access, and more.

Assessment

Students are assessed on the basis of coursework and exams (except for Art, which is 100% coursework). Teachers will support you to prepare for these and give feedback on your results.

Student activity programme

Taylors College Auckland offers a range of extra-curricular activities, such as movie viewings, sport days and weekend trips. We also run a programme called Volunteer Enterprise which enables students to take part in planning and running fundraising events and activities. Getting involved in social events and activities is a great opportunity to have fun, make friends and make the most out of your time in New Zealand.

International Student Contract Dispute Resolution Scheme (DRS)

Study Group NZ Limited, trading as Taylors College and Embassy English, commits to fully complying with the DRS rules. For more information, please visit istudent.org.nz

“

I love the weather, the landscapes and the friendly community of international students in Auckland. For anyone thinking of studying at Taylors College Auckland I would say that it's a really good choice.

Evita from Malaysia
Current AFY student

Learn and grow

Student support

We are fully committed to ensuring you receive the best possible care while you are away from home.

Orientation programme

As a new student you will undergo a comprehensive orientation. You'll be given the Student Handbook which includes essential information about living and studying in New Zealand and at Taylors College Auckland. Orientation is also a great opportunity to meet tutors, make friends and find your way around the campus.

On-campus support

We have a dedicated team of multilingual student welfare staff who are trained in the areas of student welfare, accommodation, pastoral care and counselling. For help in an emergency, we have staff who are on call 24 hours a day, 7 days a week.

Mentor groups

You will be assigned a mentor teacher and group when you start at Taylors College Auckland. You will meet with them once a fortnight to talk about academic and personal issues and familiarise yourself with New Zealand culture. Your mentor teacher is available to give you academic and personal support throughout your study period.

Help with visa and insurance

We offer a visa renewal service on-site, and can also arrange comprehensive insurance cover for you.

Student support services, including academic, health and personal counselling services are available for all our students.

Choose where to live

Accommodation

Choosing accommodation is an important part of your new adventure. We are happy to help you find the perfect place to live and make you feel right at home.

Accommodation options

A variety of accommodation options are available to you, including student residences, homestay, or independent living in houses or apartments. If you are under the age of 18, you must live in a homestay, with an adult relative, or a close family friend.

Student residences

Living together with other students is a great way to make friends and settle into university life. This option will suit you if you enjoy living in a shared environment.

Student residences are purpose-built for your needs and feature single, furnished rooms with a bed, desk, chair and wardrobe, as well as telephone and internet connections, and laundries for washing. You can also take advantage of the common areas to socialise, watch TV, play games, make a meal or just relax.

The student residence option available in Auckland is:

› Empire <empireapartment.co.nz>

Homestay

Homestay is the perfect option for students who want to experience New Zealand culture and lifestyle, and the security of home surroundings.

You will benefit from a family environment by living with carefully selected hosts who are experienced in looking after overseas students. All hosts have been given police clearance, and their homes are inspected before students are placed there.

Homestay involves staying in a private home as the paying guest. You will be provided with meals and have your own room with a bed, wardrobe, desk, lamp and chair. A telephone and laundry are also available for you.

Independent living

If you prefer to live in an independent house or apartment, we can assist and advise you on rental or other accommodation options close to our campus.

A variety of options are available, from student residences and homestay to independent living in apartments.

“When I first came to Auckland, Taylors College found me a homestay family which really helped me to adapt to the lifestyle here. They are great people and I chose to stay with them for five years.

Thomas from Indonesia

Develop your knowledge and skills

Our courses

Developed for international students, AFY is a programme of academic subjects, study skills and English language training designed to provide you with a direct path to successful degree study at university. Successfully completing the Pre-Foundation Programme and meeting the English entry requirements will allow entry into the AFY Standard Programme.

Programmes available

AFY - Standard Programme

Designed for students who have an IELTS of at least 5.0 but don't meet the requirements for direct entry into undergraduate study.

What will you study?
English and a choice of four elective subjects:

- › Accounting
- › Art*
- › Biology
- › Chemistry
- › Classical Studies
- › Economics
- › Geography
- › Information Technology
- › Mathematics with Calculus
- › Mathematics with Statistics
- › Physics

Facts
Minimum age: 16
Intakes: January, July and August
Programme length: 4 terms (40/38/35 weeks depending on intake date)
English language requirement:
IELTS score of 5.0 (with no band less than 5.0) or approved equivalent

AFY - Intensive Programme

Designed for students who have higher English and academic grades. You cover the same material as in the Standard Programme but in a shorter timeframe.

What will you study?
English and a choice of four elective subjects:

- › Accounting
- › Biology
- › Chemistry
- › Classical Studies
- › Economics
- › Geography
- › Information Technology
- › Mathematics with Calculus
- › Mathematics with Statistics
- › Physics

Facts
Minimum age: 16
Intakes: April and October
Programme length: 3 terms (31 weeks)
English language requirement:
IELTS score of 5.5 (with no band less than 5.0) or approved equivalent

Qualification title: Foundation Studies Certificate (Level 3)

This course, developed by the University of Auckland, is delivered by Study Group NZ Limited trading as Taylors College.

Qualification title: Foundation Studies Certificate (Level 3)

This course, developed by the University of Auckland, is delivered by Study Group NZ Limited trading as Taylors College.

Pre-Foundation Programme

Designed to provide you with an introduction to the core subjects offered at foundation level and give you an opportunity to improve and develop your English language skills. One-to-one assistance is readily available from your teachers.

What will you study?
In this course, you will study three core subjects and two out of three available elective subjects:

Core subjects:

- › English
- › Mathematics
- › Information Technology

Elective subjects:

- › Science
- › Commerce
- › Social Studies

Facts
Minimum age: 16
Intakes: January and July
Programme length:
January - 22 weeks
July - 23 weeks
English language requirement:
IELTS score of 4.5 (writing no less than 4.5) or approved equivalent

Qualification title: New Zealand Certificate in Foundation Skills (Level 2)

This course, developed by the New Zealand Qualifications Authority, is delivered by Study Group NZ Limited trading as Taylors College.

“ I chose to study at Taylors College Auckland because I've seen the alumni doing well at university. The teachers are supportive and guide you to help solve your problems.

Valerie from Indonesia
Current AFY student

Progressing to university

Guaranteed entry
With successful completion of AFY, and upon meeting university entry requirements, you will be guaranteed entry into the University of Auckland, AUT University or Massey University. You may also apply for other universities in New Zealand.

Assistance in university selection
Our tertiary counsellor will assist you to select the university that best meets your career aims. You will also visit the partner universities to help you make the right decision about your future.

Assessment for university entry
University entry is based on the following requirements:

- 1 Meeting the minimum overall course average score for the relevant undergraduate degree programme
- 2 Meeting the minimum overall English mark (minimum 65%)
- 3 Successful completion of the compulsory subjects as specified for the relevant undergraduate degree programme
- 4 Meeting any additional requirements prescribed by the university.

*Art is offered for January and July intakes only, and will only be available if there is sufficient student demand for this subject. If you wish to enrol in this subject, please check availability before you accept your offer of place.

Subject descriptions

AFY Standard and Intensive Programmes

Standard and Intensive Programme subjects will prepare you with the skills you need to meet the challenges of degree-level study.

English

This subject aims to develop students' confidence and competency in understanding, speaking, reading and writing English. Attention is paid to all areas of study, including accuracy of grammatical structure, spelling, punctuation and word use.

Topics include:

- › Listening (in small groups, classroom situations and lectures, showing understanding through listening exercises)
- › Speaking (one-to-one and small group discussions, formal presentations)
- › Reading (note-taking, extended reading, study of a range of newspaper and magazine articles, showing understanding through formally-assessed comprehension exercises)
- › Writing (practice of different styles, paragraph and note-form summaries, preparation of research reports).

Accounting

An introduction to accounting methods and concepts.

Topics include:

- › Cash and Accrual Accounting
- › Budgeting
- › Cash flow
- › Depreciation
- › Assessment of performance
- › Accounting systems
- › Job costing
- › Cost-volume-profit analysis
- › Financial statements for sole traders, partnerships and companies.

Art

Students gain practical knowledge of visual arts and understanding of arts in context, develop ideas through observation, and learn to analyse, interpret and evaluate images.

Please note: Studio space for students who wish to take Art is restricted and a place in this subject is not guaranteed. Priority will be given to students who intend to apply for a Bachelor of Fine Arts, Bachelor of Architecture or another discipline in design. Art is not offered as part of the April, August or October intakes. Offered in January and July only.

Biology

This subject aims to develop an understanding of Biology with the ability to communicate facts logically and effectively, design and perform a range of experiments, develop skills in critical analysis, and apply biological knowledge and understanding to the solution of problems. It also aims to foster respect for intellectual honesty in acquiring, presenting and interpreting evidence.

Topics include:

- › Structure and function of the cell
- › Responses of plants and animals to biotic and abiotic factors
- › Genetics
- › Evolution – primates and hominids.

Chemistry

This practical course provides students with the basis to study science-related courses at university, the knowledge and confidence to test their ideas experimentally, the ability to make informed and responsible decisions, and an enjoyment of science.

Topics include:

- › Atomic theory
- › Chemical bonding and the shapes of molecules
- › Chemistry of transition elements, metal hydroxides, halogens, selected ions
- › Analysis of laboratory solutions and commercial products
- › Energy involved in physical and chemical changes
- › Aqueous Chemistry
- › Oxidation-reduction and applications
- › Organic Chemistry; spectroscopic identification of organic compounds.

Classical Studies

An introduction to the history, literature, art, architecture and politics of ancient Greece (600-400 BC) and Rome (753 BC-14 AD). This subject will teach skills that are vital in any degree at university level, including critical thinking, analysis and writing argumentative essays in English.

Topics include:

- › Greek myths and the gods
- › Athenian social life
- › Athenian art and architecture
- › Athenian democracy
- › Rome and the rise of the Emperor Augustus
- › Roman architecture
- › Greek drama: Medea.

Economics

This subject provides students with an understanding of a wide spectrum of economic issues: basic economic concepts and principles, policy options available for government and the probable consequences of economic decisions.

Topics include:

- › Relative scarcity and production possibilities
- › Demand, supply and the market
- › Market structures including monopoly
- › Externalities, public goods and government intervention
- › Equity and efficiency
- › The financial markets
- › Aggregate demand and supply and the macroeconomic economy.

Geography

Students will study the formation of natural features, learn skills involved in interpreting topographic data; analyse cultural processes (urban growth, migration, development and sustainability), and study human actions that modify natural processes and analyse the outcomes.

Topics include:

- Physical Geography:
 - › Coastal processes
 - › River processes
 - › Geological processes
 - › Biomes
- Human Geography:
 - › Population
 - › Migration
 - › Urban settlements
 - › Development
 - › Sustainability
 - › Climate change.

Information Technology

This subject provides students with a wide knowledge of computer technology, common application software, programming, word processing, spreadsheets and databases.

Topics include:

- › Computer hardware
- › Computer software
- › Operating systems
- › Business applications
- › Problem solving techniques used for programming.

Mathematics A (Statistics)

A prerequisite for many university courses, this subject provides students with a broad range of mathematical knowledge and skills.

Topics include:

- › Algebra and graphing of functions
- › Exponentials and logarithms
- › Correlation and regression
- › Probability and set theory
- › Random variables and their distributions
- › Time series
- › Linear programming
- › Mathematical modelling
- › Numerical equation solving
- › Binomial, poisson and normal distributions.

Mathematics B (Calculus)

This subject provides students with a solid foundation for subjects at university that require a prior knowledge of Mathematics with Calculus.

Topics include:

- › Calculus
- › Algebra
- › Trigonometry
- › Geometry.

Physics

Students will develop theoretical knowledge, problem solving skills and experimental techniques.

Topics include:

- › Light
- › Waves
- › Kinematics
- › Mechanics
- › Electricity and magnetism
- › Atomic and nuclear physics.

“ You can always enjoy the fresh air in Auckland city and there are many opportunities for you to meet people from all around the world. One of my favourite activities in New Zealand is to go hiking on the weekends, the views are amazing!

Karen from Hong Kong
AFY graduate, now studying a Bachelor of Communication in Queensland, Australia

You will study English and a choice of four elective subjects.

“

My teachers were excellent. They not only helped me with my studies but also with the practical aspects of life in New Zealand. I was also very fortunate to gain work experience in Auckland. I started working part time in the school's library, which suited my study schedule. I love living in Auckland!

Julia from Vietnam

AFY graduate, has since completed her Bachelor of Commerce from the University of Auckland and is currently employed in New Zealand

Subject descriptions Pre-Foundation Programme

The subjects you'll study during the Pre-Foundation Programme will prepare you for academic study and improve your English language skills.

Compulsory subjects

English

The course aims to develop the four basic language skills of reading, writing, listening and speaking. It also introduces the skills required for academic reading and writing, with an emphasis on the importance of interpreting resource material and utilising new knowledge to answer questions and write essays. The development of independent learning skills is also a focus.

Mathematics

This course gives students the opportunity to develop a skill base in general maths that will prepare them to specialise in Statistics and/or Calculus in AFY.

Information Technology

This course aims to give students the opportunity to develop a skill base that will enable them to successfully complete the AFY programme. They will also develop computing skills in additional areas not covered by the AFY course, learn about internet usage for study and research and improve their presentation skills.

Designed for students who do not meet the academic or English entry requirements for the AFY Programme.

Facts

January - 22 weeks

July - 23 weeks

Students need to study 3 compulsory subjects and choose 2 out of 3 elective subjects

Elective subjects

Commerce

The course aims to give students the skills and vocabulary base in Accounting and Economics that will enable them to understand the more advanced topics taught in AFY. Students will gain knowledge and understanding of the major concepts in Accounting and Economics and will be given the opportunity to apply these concepts in a variety of situations.

Science

The Science course gives students an insight into three subjects available as individual subjects in AFY: Biology, Chemistry and Physics.

- › **Biology:** Students get to know basic information needed for the AFY Programme. This subject includes an introduction to genetics, evolution, plus animal and plant responses to environmental factors.
- › **Chemistry:** Students get to know common chemicals used in the laboratory, how to test for them, and find out what they do. Classes also involve finding out how much one substance will react with another. This is very much a practical, hands-on course to give students an enjoyment of Chemistry.
- › **Physics:** Students find explanations for why and how things happen. The course involves practical components to complement the theoretical relationships covered.

Social Studies

This course gives students an introduction to New Zealand history and Maori culture, European history and ancient history. It will include topics in the history of art, and the history of disasters. The subject introduces vocabulary that will be useful in the foundation year subjects of Classical Studies, Geography and Art. Students will also begin learning the skills of analysis and critical thinking which are necessary in humanities subjects.

Please note: Due to recent changes in regulations, effective from 01 January 2019, students studying the Pre-Foundation Programme at Taylors College Auckland must achieve an IELTS score or other internationally recognised English test outcome as required by NZQA to gain entry to the AFY programme.

“

The teachers at Taylors College are really helpful. If you don't understand anything, you can always ask them, and they're always there to help. The classes here are smaller, so it's easier for the teachers to spend time with every student. Settling in here was a bit difficult for the first few days, because I missed home. But once I got to make friends and started my studies, it helped me through a lot of my homesickness. Now it feels good to be here.

Thames from Thailand

Studying the Foundation Programme

English Language Preparation (ELP)

If you need to improve your English language skills in order to study an academic course, our English programme is the perfect solution.

Crucial skills for academic learning

The programme focuses on maximising your progress in each of the four core English skills - speaking, writing, reading and listening. You will gain study skills such as examination techniques, critical analysis, note-taking and text scanning to help you learn faster and with greater confidence.

Personal study plan

Each ELP course is designed to help you develop the necessary skills for success. Before you start your programme, we will test your level of English and advise you on how long you need to study to reach the required level.

Individual attention

Our classes are small so your progress can be carefully monitored by your teacher. There's regular testing to help ensure you reach your full potential.

Highly qualified teachers

The ELP teaching staff are highly qualified and experienced professionals in the English as a Second Language (ESL) field.

Delivered on campus

Your ELP lessons consist of 25 hours of face-to-face teaching per week. You will meet new friends and your teachers before starting the AFY programme.

Facts

Minimum age: 16

Maximum class size: 18

Entry requirement: IELTS minimum 4.0, with no band less than 3.5

Face-to-face teaching: 25 hours per week

Term length:

ELP 1 - 12 weeks

ELP 2 - 24 weeks (includes ELP 3)

ELP 3 - 12 weeks

Start dates:

January 7

April 1

July 1

September 23

“

In Chile, students do not have a close relationship with their teachers or staff. However, at Taylors College Auckland the teachers are always very helpful and create a positive learning environment. After receiving lots of support and information at Taylors College Auckland, I've decided to study Linguistics at university.

Valentina from Chile
AFY Graduate

Please note: Due to recent changes in regulations, effective from 01 January 2019, students studying ELP at Taylors College Auckland must achieve an IELTS score or other internationally recognised English test outcome as required by NZQA to gain entry to the AFY programme.

“

New Zealand is a green country with a lot of trees even in the city, and fresh air. People are kind and friendly and easy going. When you arrive they help you get into the community. Every overseas student studying abroad can study happily here.

Stephen from Hong Kong

AFY graduate, now studying Bachelor of Sport and Recreation at AUT

Skills for Success

With your future in mind we have a careers programme as part of all our programmes at Taylors College Auckland.

During your programme

You will complete CareerQuest, created by the New Zealand government, to help you to identify careers and university courses to consider. The resources provided by Taylors College and online will support you as you make your degree choices, with information and research opportunities.

There will be an opportunity to prepare a CV and write a personal statement. We encourage you to develop your skills by joining the Volunteer Enterprise group at Taylors Auckland. This group plans, advertises and carries out fundraising events and activities for staff and students. You can choose which areas you want to develop if you join Volunteer Enterprise: leadership, planning, communication or event management.

You will take part in a workshop on New Zealand attitudes and communication, discussing expectations within university and society.

CareerAhead

The CareerAhead service is designed to give you a head start in today's competitive graduate employment market by helping you become a confident, highly skilled and extremely employable graduate.

CareerAhead will help you:

- › Identify the majors at university that will suit you the best
- › Gain a better understanding of the employment market in New Zealand in your chosen area(s)
- › Develop your CV and/or work on a personal statement for your university application
- › Find information about the legislation around working in New Zealand
- › Get the chance to add volunteer work to your CV
- › Make the right choices for your future career.

You will be supported by the coordinator, your mentor and the Tertiary Counsellor throughout the CareerAhead programme.

At the end of the course

You will receive a certificate and a Career Development folder.

“ I chose Taylors College because I was not fully prepared for university. Taylors offers a quality foundation course, the teachers are professional and they help you a lot in your course. After I graduated from Taylors, I still often go back and catch up with my teachers!

Jo from China
AFY graduate, now studying a Bachelor of Business at Massey University

How to apply

You can apply to Taylors College Auckland directly or through your local agent. Whichever option you choose, we’re available to help you every step of the way.

To apply directly (students)
Visit www.taylorsauckland.ac.nz/apply-now or
Complete the application form along with the documents outlined in step two, and email it to the admissions team.
Email: anziscadmissions@studygroup.com

To apply through an agent
Complete the application form and return it to your local representative along with the supporting documents outlined in step two. For a list of our authorised representatives in your country, please visit www.taylorsauckland.ac.nz/admissions/find-an-agent

Student visas
For information on student visas to New Zealand, please go to the Immigration New Zealand website www.immigration.govt.nz

Study Group NZ Limited has agreed to observe and be bound by the Education (Pastoral Care of International Students) Code of Practice 2016. Copies of the Code are available from the NZQA website at www.nzqa.govt.nz/providers-partners/education-code-of-practice/

Full details of visa and permit requirements, advice on rights to employment in New Zealand while studying, and reporting requirements are available through Immigration New Zealand, and can be viewed on their website at www.immigration.govt.nz

Most international students are not entitled to publicly funded health services while in New Zealand. If you receive medical treatment during your visit, you may be liable for the full costs of that treatment. Full details on entitlements to publicly funded health services are available through the Ministry of Health, and can be viewed on their website at www.moh.govt.nz

The Accident Compensation Corporation provides accident insurance for all New Zealand citizens, residents and temporary visitors to New Zealand, but you may still be liable for all other medical and related costs. Further information can be viewed on the ACC website at www.acc.co.nz

International students must have appropriate and current medical and travel insurance while studying in New Zealand.

STEP 1

Complete all sections of the International Application for Admission form.

STEP 2

Attach the following documents:

- Verified copies of your academic qualifications (translated into English);
- Evidence of English language proficiency;
- A copy of your passport and visa (if you have a current New Zealand visa)

STEP 3

Submit your application to a local agent representative or directly to the Admissions Centre anziscadmissions@studygroup.com

STEP 4

Your application will be reviewed for eligibility. You will be advised of the outcome in writing.

International Application for Admission

Please print clearly in English and in BLOCK letters. Please tick boxes where appropriate.

6 months	\$840
9 months	\$1,270
10 months	\$1,410
12 months	\$1,690

STUDYCARE INSURANCE

It is compulsory for students to have full and valid health insurance upon enrolment. For your peace of mind, we offer a comprehensive insurance policy specially designed to suit the needs of international students. For your convenience, StudyCare insurance will be included automatically on your invoice unless you provide us with details of your alternative policy. Any alternative policy must offer the same level of cover as that provided by StudyCare. For further details contact the Admissions Centre, Sydney, or your Taylors representative.

Period of cover	Price^^ (NZ\$)
Up to 4 weeks	\$89
Up to 8 weeks	\$132
