

Clinical placement process- Detailed

Occurs:

Student

- Student is orientated to the clinical environment.
- *A guide is provided in the clinical placement handbook.*

First clinical shift

Supervisor expectations

- Provides education opportunities aligned to the Clinical Placement handbook.
- Completes the Perioperative Practice Shift Feedback form
 - *This should be requested by the student early in the shift to enable the supervisor to provide meaningful feedback.*
- Confirm student attendance for each shift
 - *Signature in the Clinical Placement handbook.*

Throughout the clinical placement

AUT

- AUT requests Clinical Placement feedback from the hospital, and student, to inform future clinical experiences

End of the semester
