The Symbol – Te Tohu

The Auckland University of Technology symbol shape is reminiscent of a Māori taiaha, which is symbolic of forging new ways.

The upper part represents European heritage. It contains a stylised 'A' which stands for 'Auckland and educational excellence'. The 'A' is made up of two stylised hands which represents the hands-on vocational history of the University.

The interlocking of the upper and lower shapes is representative of electronics and the future.

The lower part represents Māori heritage with stylised designs representing the three baskets of knowledge.

Applicants seeking admission under Part 3, Section 1, Clause 1.5.3 are required to provide proof of an acceptable pass/grade gained in an accepted English language test.

The preferred external test is the International English Language Testing System (IELTS) Academic test. Candidates are graded on their performance, using scores from 1 to 9 for each part of the test – Listening (L), Speaking (S), Reading (R) and Writing (W). The results from the four parts then produce an Overall Band Score. All parts of the test and the Overall Band Score can be reported in whole and half bands. Applicants must normally have taken the IELTS test within two years of their application to a programme.

The University offers two qualifications that are recognised for English language proficiency, these are: Certificate in English for Academic Study (CertEAS, see page 600) and General English, IELTS and English for Academic Purposes (GIE).

The University also recognises other English language tests as stated on the University website. The English language requirements for all of the programmes offered by the University are specified in terms of the grading scale used for the IELTS test.

Details of English language tests and equivalences: <http://www.aut.ac.nz/study-at-aut/apply-to-aut/before-you-apply-things-to-consider/ielts-grade-requirements-for-entry-into-aut>

Note: IELTS must be used to demonstrate English language proficiency for entry to those programmes where professional bodies require IELTS to be used as the only measure of English language proficiency (e.g. teacher education and clinical health sciences programmes).

Following are the IELTS admission scores and the CertEAS and GIE grades required for qualifications in general:

PART B SPECIFIC PROGRAMME ADMISSION

Admission to Bachelor's Degrees

Notwithstanding the requirements stated above, the University will consider applicants who present combinations of results from NCEA, CIE and IB for admission into open and restricted entry programmes. This includes combinations meeting literacy and numeracy requirements.

In addition to meeting the common University Entrance Standard, applicants for entry into some bachelor's degree programmes will be required to meet additional entry requirements¹ (other evidence such as a portfolio, an interview, a curriculum vitae, audition, references or a police clearance may also be required). This evidence will be used to determine the applicant's suitability for the programme. Preferred subject requirements may also be specified. Applicants may be interviewed in order to establish their potential to pursue the programme to a successful conclusion and/or, where applicable, to determine whether they have the attributes necessary for professional practice in the area.

Because of restrictions on funded student places and in some cases specialised work spaces or clinical placements, there will be a limitation on the number of students who can be enrolled in undergraduate programmes. The following overarching criteria will apply:

- Applicants must apply for a place before closing dates which can be found in individual programme study guides and on the University website.
- Applications received after the specified closing dates will be given reduced priority in consideration for a place in a programme and/or paper.
- Where the number of applicants for a place in a programme or course exceeds the approved number of available places, selection will normally be based on academic merit and in accordance with criteria that have been approved by the boards of studies.
- In those cases where the scholastic record is insufficient, e.g. for some applicants applying under Discretionary Entrance or Special Admission, other criteria such as evidence of accomplishments in the relevant field, employment history, academic preparedness (including English language or literacy) will be taken into account. Account will also be taken of the University's equity objectives.

The following table indicates where there are additional programme entry and selection requirements. Further details on specific selection criteria or processes for limited entry programmes or papers will be available from the faculty or department concerned.

¹ Note: Additional subjects and preferred subjects refer to NCEA subject titles. Applicants without NCEA subjects may be required to provide evidence of equivalence.

The General Academic Regulations

Bachelor’s degrees with additional entry requirements and/or selection criteria

In the following table, unless otherwise specified, reference to any subject represents:

- **NCEA:** at least 14 credits in [the subject] at level 3 (or level 2 where stipulated);
- **CIE:** a D grade or better in [the subject] at AS or A level;
- **IB:** a grade of 4 or better in [the subject].

Lists A, B and C refer to the following groups of subjects:

List A: Classical Studies, Drama, English, Geography, Health Education, History, History of Art, Media Studies, Social Studies, Te Reo Māori or Te Reo Rangatira

List B: Biology, Chemistry, Earth and Space Science, Physics, Science

List C: Calculus, Mathematics, Statistics

Rank Score (also known as Academic Score) may be used by some programmes to determine academic achievement for selection purposes. The score is calculated by multiplying a student’s best 80 NCEA credits at level 3 by weightings given to the level of achievement (achieved, merit or excellence) for those credits. COMPLAINTS¹ PROCEDURES

The relationship between students and lecturers is of a critical, but delicate, nature. The maintenance of a sound relationship requires commitment from both parties.

The Auckland University of Technology looks to both its staff and students to work together to achieve an effective relationship that can resolve problems directly if possible. However the University recognises that this goal may not always be achievable. The following paragraphs outline the action that should be taken if a student considers that the way in which matters have been handled is not appropriate, or if they are dissatisfied with the treatment he or she has received.

A student who is dissatisfied with any aspect of the service being given, either by academic staff, administrative staff or any other of the University's service providers, is advised to take the following action:

Step One

The student should raise the matter first with the person responsible for providing the service considered unsatisfactory or, if that is clearly inappropriate, raise the matter with the programme leader or the manager of the service area involved².

Step Two

As a general rule, the person to whom the complaint has been made will work to have the matter resolved to the student's satisfaction. If the problem persists, or the student is dissatisfied about the way the matter has been handled, he or she should request a meeting with the following: For Faculty issues – the programme leader, head of department, school or the faculty registrar. For general AUT issues – The Director responsible for the service area³.

Step Three

If steps one and two have been followed and this does not lead to a resolution of the problem to the student's satisfaction, the student may lodge a formal complaint. Any formal complaint must be made in writing and be addressed to the Head of Student Relations. The written statement must outline clearly the student's concerns. A formal complaint may be submitted directly by the person concerned, or by AuSM on behalf of the student. The Head of Student Relations will investigate the complaint and reply in writing to the student concerned.

1 Dissatisfaction with respect to an academic assessment is *not* treated as a complaint. Refer to Part 5: Section 6, and Part 6: Sections 1 and 2, General Academic Regulations regarding reconsideration of assessments and appeals against results on pages 105, 107 and 108. Students may however lodge a formal complaint under these procedures if they consider that some part of the academic appeal process has been unfair or disadvantageous.

- (a) Once a mediator has been appointed, he or she will contact the parties to introduce him or herself, explain his or her role and arrange the mediation date, time and venue.
- (b) Initially, the mediator will talk separately with all parties to find out their individual view of the complaint and discuss their commitment to the mediation process. This will enable the mediator to assess whether pre-mediation meetings are required with the parties separately or whether a mediation session can be arranged straight away.

- (c) On occasion, the mediator may decide that shuttle mediation will take place. Shuttle mediation is where the parties talk to each other through the mediator but do not meet face-to-face. The mediator will decide whether shuttle or “round-table” mediation is the most appropriate form of mediation for the particular conflict.
- (d) The mediator will arrange a date, time and venue for pre-mediation interviews and/or the mediation session.
- (e) The Vice-Chancellor and the University and the mediator will provide all the assistance they can so that the mediation session can be arranged promptly and efficiently.

- 10.6 Where the parties agree, other related persons involved will be given a copy of the mediation report by the Vice-Chancellor. The purpose of the Vice-Chancellor providing a copy of the report to the other person/s is so that these people can provide practical support to parties to help them implement their settlement agreement or resolve outstanding issues.
- 10.7 All these persons must keep the contents of this report confidential, unless the parties agree otherwise. Any agreement to provide a copy of the report to other persons is to be recorded by the mediator.
